To Our Customers

Today we are selling the sons and grandsons of customers who bought from Mr. David Hardie thirty years ago, when he started in the seed business. Good quality has always been our first object, and by adhering strictly to this rule we have maintained the friendship of our original customers, also enjoying the patronage of many new ones, and we are today proud to say that we are classed as one of the largest seed houses in the South, and our reputation for quality is unsurpassed. As usual, we have used great precautions this year to get stocks that are well matured and of strong vitality. We feel confident that our stock of seed for quality can not be beaten in the United States.

DAVID HARDIE SEED COMPANY

Liberal Discount Off Seeds in Packets and Ounces

We offer the following inducements to those purchasing seeds in packets and ounces: Select packets and ounces to the value of $1.25 and send us $1.00; for $2.50 send us $2.00; for $3.75 send us $3.00; for $5.00 send us $4.00. Larger orders same proportion.

But we wish it distinctly understood that the discount allowed is only for Seeds in Packets and Ounces, and not for Seeds by weight (over one ounce) or measure.

Please Read This Before Ordering

Kindly Read Carefully

MANNER OF REMITTING—Please, where possible, send us postoffice or express money order to cover the amount of goods wanted. Should your order amount to one dollar or more, you may deduct the fee or cost of same from the amount of the order. We will accept stamps on orders for less than one dollar.

NO GOODS SENT C. O. D.—No goods will be sent by us C. O. D., as it requires about twice as much time to handle a C. O. D. shipment and it also entails an extra expense for collection charges that our customer would have to pay.

PLANTS—All orders for cabbage plants will be sent separately from your seed orders. Seed orders will go to you promptly and plants sent as soon as the weather permits digging and shipping.

ORDER EARLY—If you will do this it will help us to fill your order promptly and carefully. Don't wait until you need the seed.

PRICES SUBJECT TO CHANGE—As it is necessary to print our catalog about the first of December and prices on all items are not thoroughly established at that time, it is therefore necessary that all prices quoted are subject to change without notice.

ABOUT WARRANTY—The DAVID HARDIE SEED COMPANY gives no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any seed, bulbs or plants it sells, and will not be responsible for the crop. If purchaser does not accept the goods on these terms, they are at once to be returned, and any money that may have been paid for them will be refunded.

NO RESPONSIBLE SEEDSMAN GIVES A GUARANTEE.

We do not handle Ornamental Plants. See page 20

David Hardie Seed Company, Dallas, Texas
Hardie's Vegetable Seeds
Of Standard Merit

The varieties of Vegetable Seeds offered by us are limited to those which, in our opinion, are best suited to the Soils and Climate of this Southern Country, keeping before our patrons the good old reliable sorts, which, if not novel, can be depended on, for in the end it is fine vegetables that are wanted, not so much novel varieties; any novelty, however, we may come across which proves to have merits for our country, will be at once added to our list, but we refrain from offering anything of which we have no knowledge.

Artichoke

Culture—Drop the seed early in spring and transplant the following spring in hills four feet apart, setting three plants to each hill; the soil should be rich and deep.

LARGE GREEN GLOBE—The best standard variety. Pkt. 10c; oz. 75c; ½ lb. $1.25; postpaid.

Asparagus

Culture—Sow in the fall or early spring in shallow drills 15 to 18 inches apart, thin out seedlings to 3 or 4 inches in rows, saving only the strongest; transplant when two years old into permanent beds, the soil of which should have been thoroughly mixed with well rotted manure.

P ALMETTO—A great yielder; earlier and larger than Conover's Colossal. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. $1.00; postpaid.

COLUMBIAN MAMMOTH WHITE—Large white stalks and very productive. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. $1.50; postpaid.

ASPARAGUS ROOTS—See Roots and Plants, page 5.

Hardie's Table Beets

Our Beet Seed have gained for us a wonderful reputation for quality. Hardie's Special Beet is absolutely unsurpassed as to quality. We strongly recommend it to market gardeners as well as the home gardener.

Culture—Sow in rich soil after it has been deeply plowed or spaded, in rows 18 to 20 inches apart, scattering seed thinly, covering seed about one-half inch. Thin out plants when up to about four inches apart in the rows. Plant five to six pounds to the acre.

EARLY BLOOD TURNIP—Extra selected stock of Blood Turnip, having larger, coarser tops and root than Detroit Dark Red, and requiring a considerably longer time to mature. Root nearly round, slightly flattened. Flesh deep red, zoned with lighter shades; sweet and crisp and tender. Excellent for summer and autumn use. Pkt. 5c; oz. 10c; ½ lb. 30c; 1 lb. $1.00; postpaid.

LONG SMOOTH BLOOD—Good late variety. Pkt. 5c; oz. 15c; ½ lb. 35c; 1 lb. $1.10; postpaid.

Swiss Chard

SPINACH BEET—Cultivated mostly for greens. Usually prepared for table in the same manner as spinach; sometimes the midrib is prepared like asparagus. Stands hot weather well and will furnish greens the whole summer long. Pkt. 5c; oz. 10c; ½ lb. 30c; 1 lb. $1.00; postpaid.

Brussels Sprouts

A member of the cabbage family; fine for spring and fall planting. The sprouts are nothing more than miniature cabbages, growing very closely on the stalks of the plant. The plants are very hardy and grow from 2 to 3 feet high and should be cultivated the same as cabbage. ¼ ounce to 100 feet of row. Pkt. 10c; oz. 35c; ½ lb. $1.00; postpaid.
Hardie’s Seed Beans

Bunch Bean Crop Short—order early

You would be unable to secure seed of better quality anywhere. The most successful truck gardeners have learned to depend on Hardie’s Beans. Remember our pound and 2-pound prices are postpaid; if wanted by express at your expense, deduct $6 per pound or 15c from the 2-pound price.

Culture—Beans are tender, and should not be planted until all danger from frost is past. No time is gained by planting them before the ground becomes warm. Drop the beans two or three inches apart, in rows standing eighteen inches or two feet apart; cultivate only when dry; draw the soil slightly towards them. They will make green beans in six or eight weeks; sow every two weeks for a succession, if seasonable, up to September.

Dwarf or Bunch Beans

JACKSON’S WONDER BUSH LIMA—An old-fashioned speckled Bush Lima bean of most excellent flavor. A very heavy yielder and somewhat of a drought resister. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid.

HENDERSON’S BUSH LIMA—The most successful Bush Lima for the southern states, and the only one we would recommend as a sure cropper. Much planted by market gardeners; is at least three weeks earlier than any of the climbing Lima’s, and a continuous and abundant bearer until frost. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

IMPROVED GOLDEN WAX

Plants are of vigorous, bushy growth, not susceptible to rust, moderately early and very prolific. Pods smooth, perfectly round and straight like a pencil; light golden yellow in color; very productive. Matures a little later than the Golden Wax, yields a large crop of long, nearly straight, broad, creamy-white pods, whether sown in spring, summer or early fall, renders it highly valuable for both home and market planting. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

WARDWELL’S KIDNEY WAX—Combines unusual hardiness, extreme earliness and wonderful productiveness with pods of handsome appearance and finest quality. Undoubtedly the greatest green pod bean known. Pods are luscious, full and slightly curved, with far less string. A continuous and abundant bearer through a long season, beginning early. Gardeners use this bean. It excels as a snap bean for table use or for canning. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices in larger quantities.

GIANT STRINGLESS GREEN POD—Larger and some earlier than the Valentine; is without strings, unusually crisp and meaty; is very prolific, and has done well wherever tried. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

Green-Podded Snap Beans

EARLY LONG POD SIX WEEKS—One of the best green pod bush sorts. Very prolific and extra early, making in six weeks. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Please write for prices in larger quantities.

EXTRA EARLY ROUND POD VALENTINE—Unexcelled for quality, and remarkably uniform in ripening; pods strong, vigorous grower, stands well up, round, thick and solid; very tender and of fine flavor. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

TENNESSEE GREEN POD—Very early and stands earlier planting than most other beans; withstands cold, inclement weather better than other sorts. Very prolific, pods very long, flat, bright green and of most excellent quality. We recommend this bean to market gardeners for extremely early planting. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

BURPEE’S STRINGLESS GREEN POD—Combines unusual hardiness, extreme earliness and wonderful productiveness with pods of handsome appearance and finest quality. Undoubtedly the greatest green pod bean known. Pods are luscious, full and slightly curved, with far less string. A continuous and abundant bearer through a long season, beginning early. Gardeners use this bean. It excels as a snap bean for table use or for canning. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices in larger quantities.

Wax or Yellow-Podded Beans

IMPROVED GOLDEN WAX—Plants are of vigorous, bushy growth, not susceptible to rust, moderately early and very prolific. Pods are medium sized, uniformly broad, thick, uniformly filled; best all solid flesh; of good quality, tender and brittle, absolutely without string or coarse fibre at all stages until maturity. Color rich golden yellow. Its reliability in producing a heavy crop of large, handsome pods, whether sown in spring, summer or early fall, renders it, highly valuable for both home and market planting. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

PROLIFIC BLACK WAX—Best of all round podded yellow stringless wax for market or home use. Vines medium-sized, with small foliage, very vigorous, hardy and productive, maturing about mid-season. Pods medium length, borne well up from the ground, curved, cylindrical, fleshy and of a clear, creamy-white color, and remain a long time in condition for use as snaps. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

WHITE CREASEBACK—Earliest of Pole Beans, exceedingly productive; an excellent market gardener’s variety; very suitable for early fall planting. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

PENCIL-POD BLACK WAX—Pods smooth, perfectly round and straight like a pencil; light golden yellow in color; very productive. One of the most profitable Wax Beans for market gardeners to plant. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

Pole or Running Beans

POLE BEANS have more sensitive to cold and wet winds than other varieties, but are of superior quality and productiveness. After settled warm weather, set poles four to eight feet long, slanting slightly toward the north in rows four feet apart and extending north and south, the poles being three feet apart in the row. Set in the way the vines climb and the pods are straighter and more easily seen. Around each stake plant five to eight beans two inches deep and when well started thin to two or three per stake. The flavor is excellent and can be used either as a green bean or dry shelled. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

FAMOUS KENTUCKY WONDER OR OLD HOMESTEAD—Very early and enormously productive, the long green pods hanging in clusters from top to bottom of pole; entirely stringless. Pods of a silvery-green color. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

WHITE CREASEBACK—Earliest of Pole Beans, exceedingly productive; an excellent market gardener’s variety; very suitable for early fall planting. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

HARDIE’S SPECKLED POLE LIMA—Very prolific, making strong, vigorous vines, and clusters from bottom to top. The flavor is excellent and can be used either as a green bean or dry shelled. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

WHITE LIMA, OR SIYA—Succeeds better in the South than any other Pole Lima; very productive and bears until frost. Pkt. 10c; lb. 40c; 2 lbs. 75c; postpaid. Write for prices on larger quantities.

KENTUCKY WONDER—Has all the good qualities of the old green pod Kentucky Wonder, is very prolific, bears early and continues on till frost. Pods are long, of beautiful transparent yellow color; very meaty and entirely stringless. Pkt. 10c; lb. 45c; 2 lbs. 85c; postpaid. Write for prices on larger quantities.

We carry large stocks of Beans for Market Gardeners’ trade.

Write for prices in large lots.
Hardie's Cucumber Seed

"For Better Crops"

Culture—Cucumbers should not be planted until the ground gets warm, unless you are prepared to protect them during the cold storms. Plant in hills 6 ft. apart each way. Space the hills 12 to 18 inches apart. Enrich the soil with a generous quantity of decomposed manure or commercial fertilizer; scatter 8 or 10 seeds on each hill, cover one inch deep and press the soil firmly over them; thin out to three of four plants to the hill if necessary. Allow one or two potatoes to ripen on the vine, as they will cease setting fruit as soon as seed commences to mature. Requires one ounce to 60 hills, about 1 1/2 pounds per acre.

HARDIE'S EARLY—An early market variety, similar to Extra Early Frame and following the same culture. It is early, maturing in about fifty days. Very dark green in color, medium size and most prolific, a wonderful variety for shipping to nearby or distant markets. One of the best features of this cucumber is the fact that it is short, low-spined and solid in character; for other words; it is the greatest faults with other varieties. A true evergreen cucumber of the white spine type. Our supply of seed is from the originator and as it produces very few seeds you will find it slightly larger in price, but the difference is in the quality. Pkt. 10c; oz. 20c; 1/2 lb. 45c; lb. 82c; postpaid.

IMPROVED LONG GREEN—Produced by selection from the Long Green. Vines vigorous and productive, forming fruit fit for the table nearly as early as the shorter sorts; fruit about 12 inches long, firm and crisp. The young fruit makes excellent pickles, and when ripe is the best for sweet pickling. We offer a carefully selected strain, uniformly long and of good form, with the large warts and spines well distributed over the surface instead of being clustered at one end as in inferior stocks. Pkt. 5c; oz. 20c; 1/2 lb. 45c; lb. 81.50; postpaid.

EARLY FRAME, OR SHORT GREEN—Fine for table or pickling. One of the best for forcing. Pkt. 5c; oz. 20c; 1/2 lb. 45c; lb. 81.50; postpaid.

KLONDIKE—An extra fine new strain of white spine, exceedingly well suited to the South. For flavor, uniform size and productiveness it can not be surpassed. Wherever it has been tried by southern gardeners it has become their main crop. Very productive, very early, very hardy. A splendid shipper. Pkt. 5c; oz. 20c; 1/2 lb. 45c; lb. 81.50; postpaid.

DAVIS' PERFECT—One of the very best for quality, shape, color and productiveness and is a fine shipper. A dark glossy green, uniform and regular in size, and as a slicing cucumber one of the best, being crisp and tender. Pkt. 5c; oz. 20c; 1/2 lb. 45c; lb. 81.50; postpaid.

BOSTON PICKLING—A very prolific cucumber, largely planted for pickles. We offer a carefully selected strain, which will produce a large quantity of good sized pickles, very productive, and is of excellent quality. For producing medium-sized pickles this strain is excelled only by our pickling strain of Improved Golden Bantam Cucumber. Pkt. 5c; oz. 20c; 1/2 lb. 45c; lb. 81.50; postpaid.

SMALL GHERKIN—(For pickles). A very small, oval, prickly cucumber, very productive, forming fruit fit for the table nearly as early as the shorter sorts; fruit about 12 inches long, firm and crisp. The young fruit makes excellent pickles, and when ripe is the best for sweet pickling. We offer a carefully selected strain, uniformly long and of good form, with the large warts and spines well distributed over the surface instead of being clustered at one end as in inferior stocks. Pkt. 5c; oz. 20c; 1/2 lb. 45c; lb. 81.50; postpaid.

HARDIE'S GARDEN CORN

Culture—Plant in hills three feet apart; leave two or three plants to the hill; where ground is strong, dwarf varieties, like Adams’ Extra Early, can be planted in hills two and a half feet apart.

Remember, our prices include postage; if wanted by freight or express, at buyer’s expense, deduct 8 cents per pound, 15 cents per 2 pounds.

TRUCKER’S FAVORITE

—A white corn, with good depth of grain, very tender and sweet and most desirable size for roasting ears. Matures with Adams’ Early and slightly larger in size. It is considered one of the best sorts of the semi-sweet kinds. Will stand early planting as it is hardy. Should you not use all of your crop for roasting ears, it is excellent for meal or feeding. Pkt. 10c; lb. 50c; 2 lbs. 55c; postpaid.

Write for prices on larger quantities.

ADAMS’ EXTRA EARLY—Hardest and earliest corn we have (not a sugar corn); makes roasting ears in six weeks after planting. Not as good as Adams’ Early, but recommended for first planting. Pkt. 10c; lb. 30c; 2 lbs. 50c; postpaid. Write for prices on larger quantities.

ADAMS’ EARLY—An early market variety, similar to Extra Early Adams, but much larger; is well adapted to the South, and may be used for roasting ears. Pkt. 10c; lb. 30c; 2 lbs. 50c; postpaid. Write for prices on larger quantities.

COUNTRY GENTLEMAN—(Sweet). This we consider the par excellence of Sweet Corn. A variety of great value, especially recommended for roasting ears. It is not the sweetest or the delicacy of flavor; very productive, producing three to five ears to the stalk; the grains are exceedingly deep and tender and are very much liked for private gardens. Ears are small, five to seven inches in length, but are borne very productively, two or three good ears to the stalk. The color of corn is cream-yellow, tender and of fine flavor, and is very much liked for private gardens. Pkt. 10c; lb. 35c; 2 lbs. 65c; postpaid.

HICKORY KING, IOWA SILVERMINE AND WHITE PEARL—All good to plant for roasting ears. Pkt. 10c; pint 20c; postpaid. For larger quantities, see Field Corn.

Corn Salad or Fetticus

Culture—Sow during early spring and in August and September in drills one-inch deep and 6 inches apart; just before winter cover lightly with straw.

LARGE-LEAVED—Pkt. 10c; oz. 25c; postpaid.

David Hardie Seed Company, Dallas, Texas
HALF LONG DANVERS

Cover seed one-half inch; thin plants to three or four inches in rows.

We received many compliments from commercial truck gardeners on the germinating power and quality of our Cabbage Seed. Produced by the same grower year after year assures us of the uniform quality and type.

**Culture**—For plants in hotbeds, sow seed early in January, then transplant in open in February and March. Later sow early varieties out of doors in March and April. For winter cabbage, sow seed in July, August and September, then transplant in October. Early varieties should be set out in rows three feet apart and about 18 inches apart in the row.

**EARLY JERSEY WAKEFIELD**—Best first-early, oblong-headed cabbage. Heads uniformly hard and solid. Pyramidal in form, generally pointed at the end, with few outside leaves. Outer leaves are unusually thick and heavy, and therefore stand more cold weather without injury when carried through the winter either in the open ground in the South or in cold frames in the North. Pkt. 5c; oz. 20c; 1/4 lb. 60c; lb. $2.00; postpaid. Write for prices in larger quantities.

**CHARLESTON, OR LARGE WAKEFIELD**—Five to six days later than early Jersey Wakefield; heads nearly one-half larger and very solid; very compact in growth, and does not burst open when ripe, like many early sorts. Pkt. 5c; oz. 20c; 1/4 lb. 60c; lb. $2.00; postpaid. Write for prices in larger quantities.

**STEIN'S EARLY FLAT DUTCH**—Early strain of Flat Dutch, being very similar but not quite so large and earlier. Pkt. 5c; oz. 20c; 1/4 lb. 60c; lb. $2.00; postpaid. Write for prices in larger quantities.

Increase your income by planting and cultivating a home garden—make it your hobby—it pays.

**EARLY DRUMHEAD**—Heads round and flat; comes in after Henderson’s Early Summer, but much larger. Pkt. 5c; oz. 20c; 1/4 lb. 60c; lb. $2.00; postpaid. Write for prices in larger quantities.

**HENDERSON'S EARLY SUMMER**—The champion early Cabbage for the South. The earliest large heading Cabbage and a great favorite with market, gardeners; handsome heads, flat or slightly rounded; a good keeper. Pkt. 5c; oz. 20c; 1/4 lb. 60c; lb. $2.00; postpaid.

**HENDERSON'S SUCCESSION**—Sure heading sort, a little later than Early Summer, similar but not quite so large and earlier. A most excellent variety. Pkt. 5c; oz. 20c; 1/4 lb. 60c; lb. $2.00; postpaid. Write for prices in larger quantities.

**LARGE LATE DRUMHEAD**—Heads grow to very large size and heavy weight. Solid of good quality and texture, and have very few leaves, allowing of close planting. Pkt. 5c; oz. 20c; 1/4 lb. 60c; lb. $2.00; postpaid.

**DRUMHEAD SAVOY**—Excellent winter and spring family cabbage, partaking partially of the size of the Drumhead and the curled leaves of the Savoy. For family use it is equalled by none. Pkt. 5c; oz. 25c; 1/4 lb. 75c; lb. $2.50; postpaid.

**MAMMOTH ROCK RED**—The best, largest and surest heading red cabbage ever introduced. Head is large, round, very solid and of deep red color. Pkt. 5c; oz. 25c; 1/4 lb. 75c; lb. $2.50; postpaid.

**Cauliflower**

**Culture**—Much the same as cabbage, has to be planted very early in the South to do any good.

**EARLY SNOWBALL**—Popular extra early strain, of dwarf, compact growth. Every plant will make a fine solid head of good size, under favorable circumstances. Pkt. 20c; oz. 50c; oz. $1.75; postpaid.

**EARLY DWARF ERFURT**—Choice strain of the popular Erfurt type; produces very solid, pure white heads, and is a remarkably sure header. Plants very dwarf. Pkt. 20c; oz. 50c; oz. $1.75; postpaid.

**Cress or Pepper Grass**

**Culture**—Sow broadcast in beds; can be cut repeatedly.

**CURLED CRESS, OR PEPPER GRASS**—Pkt. 10c; oz. 20c; postpaid.
Hardie's Frost-Proof Cabbage Plants

Frost-proof Cabbage Plants usually withstand the cold winter, say at least six winters out of eight, in Texas, Louisiana, Mississippi and Alabama. In other territories, February and March are best months to plant. The word “frost-proof” does not mean “freeze-proof.” However, you will be surprised at the amount of freezing weather the plants will stand. Under favorable conditions, they stand it down to 13 above zero.

The plants when received will be somewhat wilted and have a hard, stunted appearance, which will be disappointing to persons who have never used these plants before. Regardless of appearance, they will produce the crop results.

Varieties

Early Jersey Wakefield, Charleston Large-Type Wakefield, Succession and Early Flat Dutch.

Prices by Parcel Post, postage paid, 50c per 100 plants; 200 plants for 75c; 500 plants for $1.60; 1,000 or more at $1.75 per 1,000 plants.

Prices by Express, buyer paying express charges. In lots of 1,000 to 4,000 plants at $2.00 per 1,000; 5,000 or more at $1.75 per 1,000. Plants packed for express shipment, 1,000 or 2,000 plants of a variety to a package weigh about 25 pounds per thousand plants, packed for shipment.

Order Early to Get Plants Delivered in Time

When we receive your order for these plants we have to forward it to our growing station, which takes several days. Plants are shipped direct to you from the growing station. Plants can not be pulled or shipped when beds are wet. We sometimes have a week or ten days of continued wet weather which prevents shipment. If you do not receive your plants as soon as you expect them, you will know that weather prevents shipment.

Other Vegetable Roots and Plants

Have an Asparagus Bed

It will pay you to plant an asparagus bed. For making a permanent bed, enrich the space to be used, place the rows twelve inches apart and set one root every nine or ten inches. Set plants six or seven inches below the soil surface. A bed four by twelve feet will require fifty plants.

ASPARAGUS ROOTS—Palmetto, two-year-old, 40c per doz.; $2.50 per 100. Barr’s Mammoth, two-year-old, 40c per doz.; $2.50 per 100. Columbia Mammoth White, two-year-old, 40c per doz.; $2.50 per 100.

EGGPLANTS—Ready in April. 25c per doz.; $1.50 per 100.

HORSERADISH ROOTS—35c per doz.

PEPPER PLANTS—Ready in April. 25c per doz.; $1.50 per 100.

RHUBARB ROOTS—$2.00 to $2.25 per doz., according to size.

SWEET POTATO SLIPS—Can supply Porto Rico Yams only. 50c per 100; 500 for $2.25; 1,000 for $4.00; postpaid.

TOMATO PLANTS—We are able to supply Dwarf Champion, Dwarf Stone, Early Acme, Earlana and McGee Tomato plants. Price, 50c per 100; $3.75 per 1,000; postpaid.

ONION SETS—White Silverskin, Red and Yellow onion sets. 35c per qt., or $1.00 per gallon, postpaid. By express charges to be paid by customer. White Silverskins, per bu., $4.50; Red or Yellows, per bu., $4.00.

ONION SETS—White Multipliers, 35c per lb.; postpaid.

Anyone sending us an open order for so many dollars' worth of Potatoes, Onion Sets, Roots or Plants may rest assured we will send them as much for their money as we possibly can.

NOTICE—Express or freight charges on Roots and Plants to be paid by purchaser unless otherwise stated.

Bermuda Onion Plants

The Progressive Gardener Now Plants Onion Plants

These plants are rapid growers, will give you green onions within a couple of weeks of good growing weather. If left in the soil to mature will produce an extra large flat onion, the mildest and sweetest variety of the onion family. Onions produced from plants are usually free from the “hollow center” that usually shows in a matured onion produced from a set. These plants are very slow to run to seed, overcoming another fault of an onion grown from the set.

We can supply both the Yellow Bermuda and the Crystal White Wax Bermuda onion plants. Kindly specify which one you want when you order.

Price, postpaid—100 plants, 35c; 500 plants, $1.25; 1,000 plants, $2.90.

Prices, by express—Charges to be paid by customer: 1,000 plants, $1.50; 2,000 to 3,000 plants at $1.25 per 1,000; 5,000 or over, $1.00 per 1,000.

David Hardie Seed Company, Dallas, Texas
Hardie’s Collards

The Collard is an old favorite adapted to the South, and as a producer of “greens” for boiling in winter and spring it has no equal. It will pay you to have a collard patch. Sow at any time up to September 15th. When plants are 6 inches high transplant to open ground, setting plants 2 feet apart in the row. Cultivate like cabbage. Sow one ounce of seed to 200 feet of row. Collards mature in 3 to 4 months.

TRUE GEORGIA—Pkt. 5c; oz. 15c; ½ lb. 35c; lb. $1.00; postpaid.

Celery

Culture—Sow in March or April and rake the seed in lightly; water and shade from strong sun, set out when plants are 6 inches high, in trenches 2½ feet apart; plants need shading during hot weather; when tall enough cover with earth to blanch them.

GOLDEN SELF-BLANCING—The best of all early “self-blanching” varieties. It is of dwarf, compact growth, with thick, solid, heavily ribbed stalks, which blanch easily to a clear waxen-yellow. Pkt. 10c; oz. 40c; ½ lb. $1.25; postpaid.

WHITE PLUME—Stalks, portions of inner leaves and heart are naturally white and become fit for use by simply tying it up closely. More used than any other variety by market and private gardeners. Pkt. 10c; oz. 25c; ½ lb. 75c; postpaid.

CELERY SEED FOR FLAVORING—Oz. 5c; M lb. 15c; lb. 50c; postpaid.

Endive

Culture—Sow in early spring and fall. Cover lightly; thin out to eight inches apart; tie up loose leaves to bleach.

GREEN CURLED—Leaves are finely cut or lacinated, giving the plant a feathery effect, which is quite ornamental when the centers are finely blanched. Pkt. 5c; oz. 20c; ½ lb. 60c; postpaid.

EVER-WHITE CURLED—A very beautiful sort; leaves are very light-colored, even the outer ones being nearly white. Plant moderately dense, with divided leaves which are a little coarser than those of the Green Curled. Pkt. 5c; oz. 20c; ½ lb. 50c; postpaid.

Kohl-Rabi

Culture—An excellent vegetable, and should be in every garden. Cultivate same as cabbage. For fall crop sow in July; for early spring sow in December or January.

EARLY GREEN VIENNA—Earlies and best for forcing, also good for open ground. Pkt. 10c; oz. 25c; ½ lb. 75c; postpaid.

EARLY PURPLE TOP, SMOOTH—Differs from Early Vienna only in color. Pkt. 10c; oz. 25c; ½ lb. 75c; postpaid.

Leek

Culture—Sow same as onions, transplant into well-prepared rich beds, in rows one foot apart and four to five inches in the row; set the roots deep and draw the earth to them when cultivating, so as to blanch them.

BROAD-LEAVED LONDON FLAG—Strong, vigorous and hardy. Pkt. 10c; oz. 25c; ½ lb. 75c; postpaid.

LARGE ROUEN—Produces a short, thick stem, with dark green foliage; remains long in good condition. Pkt. 10c; oz. 25c; ½ lb. 75c; postpaid.

Eggplant

Culture—Sow in hotbeds very early in spring and transplant about two and a half feet apart, in rich warm ground.

NEW YORK IMPROVED PURPLE SPINELESS—By far the best variety for the south; fruits of largest size and perfect form; eight or ten grow on a plant. Pkt. 10c; oz. 40c; ½ lb. $1.25; lb. $4.50; postpaid.

BLACK BEAUTY—Fully as large and ten days to two weeks earlier than the New York Improved Purple. The grand large fruits are thick and of a most attractive form. Skin is a rich lustrous purplish-black, the brilliant coloring being uniform over the whole fruit. Spineless. Pkt. 10c; oz. 40c; ½ lb. $1.40; lb. $9.00; postpaid.

Herbs

ANISE—Seed aromatic and carminative. Pkt. 10c.

BASIL, LARGE GREEN SWEET—Culinary herb for flavoring soup, etc. Pkt. 10c; oz. 20c.

CATNIP—A valuable medicinal plant. Pkt. 10c.

CELEY—For seasoning only, not for planting. Oz. 5c; lb. 50c.

CORIANDER—Seeds aromatic. Pkt. 10c; oz. 15c; lb. 75c.

DILL—Seeds for flavoring pickles and vinegar. Pkt. 5c; oz. 10c.

FENNEL, LARGE SWEET—Seeds aromatic, for flavoring. Pkt. 10c; oz. 25c.

LAVENDER, SWEET—Fine aroma. Pkt. 10c.

MARJORAM, SWEET—For seasoning. Pkt. 10c; oz. 30c.

MUSTARD, WHITE—For seasoning. Not planting seed. Oz. 10c; lb. 65c.

ROSEMARY—The aromatic leaves are used for seasoning. Pkt. 10c.

SAGE—Used as a culinary herb. Pkt. 10c; oz. 30c.

SAVORY, SUMMER—A culinary herb. Pkt. 10c.

THYME—Used as a seasoning. Pkt. 10c.

Kale

Culture—Kale makes excellent greens for winter and early spring; sow in June or July and transplant like cabbage. Will stand through the winter.

NEW YORK IMPROVED PURPLE SPINELESS—Fully as large and ten days to two weeks earlier than the New York Improved Purple. The grand large fruits are thick and of a most attractive form. Skin is a rich lustrous purplish-black, the brilliant coloring being uniform over the whole fruit. Spineless. Pkt. 10c; oz. 40c; ½ lb. $1.40; lb. $9.00; postpaid.

Leek

Culture—Sow same as onions, transplant into well-prepared rich beds, in rows one foot apart and four to five inches in the row; set the roots deep and draw the earth to them when cultivating, so as to blanch them.

BROAD-LEAVED LONDON FLAG—Strong, vigorous and hardy. Pkt. 10c; oz. 25c; ½ lb. 75c; postpaid.

LARGE ROUEN—Produces a short, thick stem, with dark green foliage; remains long in good condition. Pkt. 10c; oz. 25c; ½ lb. 75c; postpaid.

The food value of vegetables depends upon their freshness—so raise your own.
vines cover the ground, and pinch the ends of the early shoots to induce early fruiting.

Culture—To grow fine heads the ground has to be good, and have plenty of rich compost in it. Drop two or three seeds in a frame in January or February and plant out in March, giving them space in accordance with the size of the lettuce for summer crop; grow where sown, thinning out to 6 or 8 inches apart.

BIG BOSTON—Big Boston is of the butter-head type. Large cabbage variety, forming big yet compact, tender and crisp heads. Adapted to open ground for fall and fall use. Remarkably long-standing, has few outside leaves. Grown extensively in the South this market. Our seed is produced in California by a most reliable grower and we feel that it is the best strain and type for general growth in the South. Pkt. 5¢; oz. 15¢; ½ lb. 40¢; lb. $1.75; postpaid.

WONDERFUL, OR NEW YORK—Plants of extra large growth, producing heads of immense size and closely folded. Crisp, tender and blanches beautifully, and has a very fine flavor. Outer leaves a rich dark green. This is one of the best lettuces for fall and early spring planting. Pkt. 10¢; oz. 20¢; ½ lb. 60¢; lb. $2.00; postpaid.

SIMPSON’S EARLY CURLED—A decidedly crisp variety. Color very light green; never spotted or brownish in any part. Quality excellent; sweet in flavor. Pkt. 5¢; oz. 20¢; ½ lb. 50¢; lb. $1.25; postpaid.

IMPROVED EARLY HANSON—Curled variety; large and solid heads, crisp and tender. Pkt. 5¢; oz. 20¢; ½ lb. 50¢; lb. $1.25; postpaid.

BURRELL’S GEM—A fine melon with rich salmon-colored flesh, sweet and fine flavored. Melons are oblong with smoothly rounded ends, slightly ribbed and closely netted; skin is dark green with brownish netting; rind thin but tough; meat exceptionally thick and firm, but melting, of deep rich salmon; they weigh about 2 pounds each. Pkt. 5¢; oz. 15¢; ½ lb. 40¢; lb. $1.25; postpaid.

HONEY DEW—A melon of fine flavor, weighing five to six pounds; flesh light green and very thick. A cross between a Cantaloupe and a Cassaba and has the good qualities of both, but a flavor superior to either. An excellent variety for the home garden and a real money maker for the truck grower. Pkt. 10¢; oz. 20¢; ½ lb. 60¢; lb. $2.00; postpaid.

**Hardie’s Lettuce**

**Crisp and Tender**

**Culture**—Plant in hills eight or ten feet apart, dropping ten seeds to the hill; thin out to three plants to the hill, cultivate until the vines cover the ground, and pinch the ends of the early shoots to induce early fruiting.

**Clinical Details**—Hardie’s Cantaloupe or Muskmelon seed is grown at Rocky Ford, Colorado, by two of the best growers of that big seed-producing center. We have contracted with these same firms for many years and have never had cause to even consider a change. We receive many letters from our customers telling of the wonderful cantaloupes they have produced from our seed.

**Watermelon Seed**

**Southern-Grown—Crisp and Delicious**

Hardie’s Watermelon seed will satisfy you. Southern-grown and saved from crops grown exclusively for seed. All seed from selected melons only.

**Culture**—Plant in hills eight or ten feet apart, dropping ten seeds to the hill; thin out to three plants to the hill, cultivate until the vines have grown over the ground, and pinch the ends of the early shoots to induce early fruiting.

**HARDIE'S SPECIAL** — This wonderful melon was introduced by us several years past and is a distinct variety—not an old sort sold under a new name. Customers have sent us Hardie’s Special melons weighing from forty to sixty-five pounds each that were not only perfect in type but were extremely delicious. The color is a beautiful dark green, flesh deep red, very juicy and extra sweet and tender, also free from strings. It has a thin rind but is fairly tough. Our stock of seed is not large, as we could not expect a bountiful supply when seed are selected from only the largest and improved type melons. The melon will weigh forty to sixty pounds and is well shaped, as you will see from photo on this page. It is our suggestion that you do not fail to include this wonderful melon in your order.

- **Pkt. 10c; oz. 20c; 1/4 lb. 60c; lb. #2.00; postpaid.**

**TOM WATSON**—One of the best melons. Long variety, skin a dark mottled green, rind thin but very tough, making it a good shipping melon; flesh bright scarlet, heart very large, with small seed area, has a delicious sweet and satisfying flavor; they average in weight about 35 to 40 pounds. Its appearance and quality strongly recommend it, both for home use and for market.

- **Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00; postpaid.**

**ANGEL KISS**—This is very good variety for home market. It is of very light green color on the outside and the meat is red, very sweet and of excellent flavor. We have added this variety to our list account of the many requests we have had for same.

- **Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00; postpaid.**

**THE HALBERT HONEY**—Blunt both at stem and blossom ends, rather prickly; skin a dark green, and has a handsome appearance. Essentially the melon for the home gardener and local markets.

- **Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00; postpaid.**

**BRANCH'S GENUINE RATTLESNAKE**—Its shipping qualities are of the very best. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00; postpaid.

**GIRARDEAU'S TRIUMPH**—Grows uniformly large; dark green rind, red flesh and fine flavor. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00; postpaid.

**GOLDEN HONEY WATERMELON**—We have had a good many customers wanting a yellow-mottled melon, which want we feel sure this melon will fill. Delicious flavor; not surpassed by any melon for sweetness and tenderness; it fairly melts in the mouth. Grows a medium size, of oblong shape, color of rind mottled green, and has a handsome appearance. Pkt. 10c; oz. 15c; 1/4 lb. 40c; lb. $1.25; postpaid.

**KOLB'S GEM**—Flesh bright red and of excellent flavor. Pkt. 5c; oz. 10c; 1/4 lb. 30c; lb. $1.00; postpaid.

**Okra**

- **Culture**—Sow in drills about three feet apart and thin out to one foot apart.

**WHITE VELVET**—An improved variety of medium height, bears an abundance of white, smooth, tender pods. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c; postpaid.

**TALL GREEN**—Long ribbed pods. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c; postpaid.

**DWARF GREEN**—Early and productive, smooth pods. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 75c; postpaid.

---

David Hardie Seed Company, Dallas, Texas
Hardie’s Onion Seed

For Better Crops

Our stock of Onion Seed is most complete this season with our usual quality, and we ask customers that are in need of large lots to write us for prices.

Culture—To grow fine onions, the ground should be well manured; you cannot get it too rich; they require more or less manure every crop; the land should be well plowed and pulverized before planting; for large onions from the seed, sow in drills about 2½ feet apart, thin out to about six inches in the drills, and keep weeds cleared out. February is early enough to sow; you can also sow again early in the fall for bunch onions.

Large onions can be grown from seed quite as easily and more cheaply than from sets that have been grown a previous season and carried over. One report being over 1,200 bushels to the acre—and they bring an extra price. One of the leading varieties for the market. Our seed is extra fine quality, absolutely the best grown. Pkt. 10c; oz. 20c; ¼ lb, 65c; lb. $2.25; postpaid.

MAMMOTH PRIZETAKER—Largest of all, having been grown to the enormous weight of over 6 pounds; a handsome, fine flavored sort. Of clear, bright straw color, and uniform, perfect globe-shape. Produces enormous crops, one report being over 1,200 bushels to the acre—and they bring an extra price. One of the leading varieties for the market. Our seed is extra fine quality, absolutely the best grown. Pkt. 10c; oz. 20c; ¼ lb, 65c; lb. $2.25; postpaid.

YELLOW GLOBE DANVERS—Handsome, round or globe-shaped variety, of large size with thin, yellow skin, white flesh, fine-grained, mild, very firm and the best of keepers. Ripens early and sells readily at the highest prices. Our seed is carefully saved from selected bulbs. Pkt. 10c; oz. 25c; ½ lb, 75c; lb. $2.50; postpaid.

AUSTRALIAN BROWN—A most valuable variety. Onion of medium size, wonderfully hard and solid, and most attractive for market, both in form and appearance. Extremely early; no scallions. Every seed produces a good sized onion, and the bulb begins to form very quickly; when plants are not three inches high. Proven to be nearly four weeks earlier, and ripens more uniformly. From its firmness and hardiness, it will keep in good condition longer than any other onion known. The color of the skin is clear amber-brown. Pkt. 10c; oz. 25c; ½ lb, 75c; lb. $2.50; postpaid.

MAMMOTH SILVERSKEIN—Attractive form, flattened but thick through. Single bulbs often obtain weights of from 2½ to 4 pounds each. Skin and flesh are white and of a particularly mild and pleasant flavor. Matures early, of uniformly large size and perfect form, and will bring a large price in market. Pkt. 10c; oz. 25c; ½ lb, 75c; lb. $2.50; postpaid.

Bermuda Onion Seed

The best stock of this seed is grown in Teneriffe, Canary Islands. We import our seed direct from the best growers in Teneriffe, making our contracts with them in advance of the season, and they always deliver their onions fresh and of the best quality. We have our onions in stock in the fall, and will ship them in good condition. Our onions are very hardy, and will stand severe weather. They are excellent for the market, and will keep well in the ground until spring. Our onions are also very profitable, and will pay well in the hands of the most careful grower. We have a large stock of this seed in stock, and will gladly send samples to any one who wishes to try it. Pkt. 10c; oz. 25c; ½ lb, 75c; lb. $2.50; postpaid.

Price, postpaid—100 plants, 35c; 500 plants, $1.25; 1,000 plants, $2.00.

Prices, by express—Charges to be paid by customer: 1,000 plants, $1.50; 2,000 to 3,000 plants at $1.25 per thousand; 5,000 or over, $1.00 per thousand.

ONION SETS—See page 5.

Notice

Take advantage of our very liberal offer on Garden and Flower Seeds in packages and ounces as explained on the inside front cover of our catalog. Please figure your order carefully and enjoy this wonderful discount. Extra seeds will not be sent on your order should you fail to allow yourself the discount as it would require considerable clerical work and expense to do this. Be sure and figure your discount—it is yours if you take it.

David Hardie Seed Company, Dallas, Texas
Hardie's Peas

REMEMBER—Our pound and two-pound prices are postpaid; if wanted by freight or express, at buyer's expense, deduct 8 cents per pound and 15c per two pounds from price. Larger quantities by express or freight at buyer's expense. Write for prices should you want to purchase larger lots than quoted here.

Culture—Plant early varieties beginning in February. They are usually planted in double rows, three to four feet apart; stake those requiring it when about six inches high; keep them clean and earth up.

Dwarf Varieties

SELECTED FIRST AND BEST—Early, productive, hardy, with a strong, vigorous vine, which is light in color and uniform growth. 2½ to 3 feet in height, and bearing straight pods 2½ to 3½ inches long; round, light in color and blunt at the ends; seed round, rather small, and white in color. Pkt. 10c; lb. 40c; 2 lbs. 70c; postpaid. Write for prices in larger quantities.

EARLY ALASKA—Of remarkable earliness and hardiness. A good yielder and produces pods of good size and dark green color, which are well filled with round, smooth peas of splendid flavor. Height, 2 feet. The color of the dried pea is green. It ripens evenly; one picking will nearly clean off the crop. Pkt. 10c; lb. 40c; 2 lbs. 70c; postpaid. Write for prices on larger quantities.

NOTT'S EXCELSIOR—The best dwarf wrinkled pea. Cannot be recommended too highly; is an improvement on the “American Wonder,” and can be planted same as Extra Early; large pods, very productive, peas sweet and luscious. Pkt. 10c; lb. 40c; 2 lbs. 70c; postpaid. Write for prices on larger quantities.

THOMAS LAYTON—Outranks all other extra early wrinkled sorts in hardiness and productivity. It has all the delicious sweetness of the Gradus, and comes into use fully as early as any of the Extra Earlys. Is of stronger constitution than the Gradus, is harder, and therefore can be planted earlier. More prolific, the yield of peas to the quantity of pods gathered being quite phenomenal. Pods are large and shapely, of a rich dark green color, and filled from end to end with seven to eight very large white-seeded wrinkled sugar peas, the flavor of which is unsurpassed by any other pea. The vines are strong and hardy and from three to three or one-half feet in height. Pkt. 10c; lb. 40c; 2 lbs. 70c; postpaid. Write for prices in larger quantities.

PRIDE OF THE MARKET—One of the sweetest and best peas. Very hardy and productive; pods large and generally well filled, a favorite with market gardeners; grows 1½ to 2½ feet high. Don't fail to plant this variety. Pkt. 10c; lb. 40c; 2 lbs. 70c; postpaid. Write for prices on larger quantities.

Intermediate and Late Peas

BLISS' EVERBEARING—Best pea for main crop; is medium early and continues to bear longer than any pea we know of; very prolific, has fine, sweet flavor; growth about two and one-half feet. Pkt. 10c; lb. 40c; 2 lbs. 70c; postpaid. Write for prices on larger quantities.

CHAMPION OF ENGLAND—(Wrinkled). One of the richest and best flavored peas; long pods, vine four or five feet high. Pkt. 10c; lb. 40c; 2 lbs. 70c; postpaid. Write for prices on larger quantities.

WHITE MARROWFAT—A fine variety, splendid yielder; broad, well-filled pods; vine grows four feet high. Pkt. 10c; lb. 40c; 2 lbs. 70c; postpaid. Write for prices on larger quantities.

Peppers

Culture—Sow early in hotbed, and when soil has become warm, plant out in rows two feet apart and 18 inches in rows.

NEW CHINESE GIANT—Very large mild pepper; on account of its earliness, productivity and large size, truckers have found this the most profitable variety. Flesh unusually thick, mild and sweet. Pkt. 10c; oz. 50c; ½ lb. $1.75; lb. $6.00; postpaid.

RUBY KING—Very large size; from five to six inches long and three to four inches in diameter; very mild and of pleasant flavor. Pkt. 10c; oz. 40c; ½ lb. $1.50; lb. $4.50; postpaid.

LARGE BELL OR BULL NOSE—Plants vigorous, about two feet high, compact and very productive, ripening uniformly and early. Fruit large, with thick, mild flesh of excellent quality for use in salads and mansas or stuffed peppers. Color is deep green when fruit is young, bright crimson when ripe. Pkt. 10c; oz. 40c; ½ lb. $1.35; lb. $4.50; postpaid.

LONG RED CAJUNNE—Hot and pungent, used for pepper sauce and seasoning purposes. Pkt. 10c; oz. 40c; ½ lb. $1.40; postpaid.

CHILI—Prolific, small variety, strong, used for pepper sauce. Pkt. 10c; oz. 50c; ½ lb. 1.75; postpaid.

RED CLUSTER—A new type of Chili; bright red pods in bunches. Pkt. 10c; oz. 40c; ½ lb. 1.40; postpaid.

Parsnips

Culture—In early spring sow in drills 15 inches apart; thin out to six inches.

LARGE SUGAR OR HOLLOW CROWN—The only variety for the South. Pkt. 5c; oz. 15c; ½ lb. 40c; lb. $1.25; postpaid.

Parsley

Culture—Early in spring sow in rows one foot apart; can also be sown in fall; will stand all winter in the South.

PLAIN PARSLEY—Dark green leaves, good for seasoning. Pkt. 5c; oz. 15c; ½ lb. 35c; lb. $1.00; postpaid.

DOUBLE CURLED—Very beautifully curled and used for garnishing. Pkt. 5c; oz. 15c; ½ lb. 35c; lb. $1.00; postpaid.

Seed Irish Potatoes

Seed Potatoes—We handle large quantities of Seed Irish Potatoes each season and are in position to quote you prices on most any quantity for spring of 1928. We carry in stock the following well-known varieties: BLISS' TRIUMPH, TENNESSEE TRIUMPH, IRISH COBBLERS (Second Crop), EARLY OHIOS and other varieties. Account of changes of prices on potatoes, we think best not to quote same in this catalog, as they may advance or decline, so will ask that you advise us the quantity you expect to purchase AND WE WILL QUOTE YOU PRICES.
Hardie's Radish Seed

For Home and Market

Culture—The soil for radishes should be light, rich and well pulverized, as their mild and crisp qualities depend much on their rapid growth. For very early use, sow in mild hotbeds in January, and in open ground as soon as the ground can be worked; for succession sow at intervals of ten or twelve days; they also do well sown in the fall.

Turnip-Shaped Varieties

EARLY SCARLET TURNIP WHITE TIPPED—Desirable French sort, is of good quality and one of the earliest. It is crisp and tender, and beautiful scarlet color. Splendid to bunch for market, and finest for family use. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. $1.00; postpaid.

NON PLUS ULTRA (Fireball)—Roots are small, round and a deep rich scarlet in color. Make a quick growth and are ready for use in from 20 to 30 days after sowing of seed. Flesh is white, crisp and tender, of remarkably fine quality. Our seed is of the very finest strain. Pkt. 5c; oz. 10c; ½ lb. 30c; lb. 90c; postpaid.

EARLY SCARLET TURNIP—Roots small, round, red skin. Flesh very white, tender and of delicate flavor, of quick growth and desirable for general use. Pkt. 5c; oz. 10c; ½ lb. 30c; lb. 90c; postpaid.

FRENCH BREAKFAST—Extremely early, medium sized, olive-shaped, small top, of quick growth, very crisp and tender. Of a beautiful scarlet color except near the tip, which is pure white. Splendid for the table on account of its excellent quality and beautiful color. Pkt. 5c; oz. 10c; ½ lb. 30c; lb. 90c; postpaid.

ROUND BLACK SPANISH—Round and firm; flesh white and fine-flavored, but strong; excellent keeper. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. $1.00; postpaid.

Long Varieties

IMPROVED CHARTIER—Decidedly distinct in appearance from any radish in cultivation. The color at the top is crimson, running into pink at about the middle and from thence downward into pure white. Pkt. 5c; oz. 10c; ½ lb. 30c; lb. 90c; postpaid.

NEW ICICLE—A very fine new white variety and the earliest of the long showy white sorts yet produced. Has but few tops, making it very desirable for forcing. The roots continue brittle, mild and crisp, until full grown. They have a peculiar and delicious freshness not found in the other sorts. Very rapid growing, tender, with a delicate, fine grain. Finest for market or family use. Pkt. 5c; oz. 10c; ½ lb. 30c; lb. 90c; postpaid.

ROSE CHINA—Excellent winter sort, nearly cylindrical in shape, skin rose colored; flesh white, very pungent. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. $1.00; postpaid.

LONG BLACK SPANISH—A large, black-skinned radish, with a firm white flesh; shape oblong, thicker and heavier than the White Vienna and of a more pungent flavor. An extra good keeper, lasting till spring and retaining its flavor and firmness all winter. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. $1.00; postpaid.

EARLY LONG SCARLET SHORT TOP—An old standard variety, quick of growth, long slender roots, extra short tops, deep rich scarlet color. One of the earliest and surest to form tender roots, as it has a larger surface to gather moisture from the soil. Has many friends and is a sure success. Pkt. 5c; oz. 10c; ½ lb. 30c; lb. 90c; postpaid.

Rhubarb or Pie Plant

Culture—Sow early in spring in drills one foot apart; in fall or following spring transplant three feet apart.

LARGE VICTORIA—Very large, rich in flavor, much esteemed. Pkt. 10c; oz. 20c; ½ lb. 60c; lb. $1.85; postpaid.

Rhubarb or Pie Plant

Culture—Sow early in spring in drills one foot apart; in fall or following spring transplant three feet apart.

LARGE VICTORIA—Very large, rich in flavor, much esteemed. Pkt. 10c; oz. 20c; ½ lb. 60c; lb. $1.85; postpaid.

Salisfy or Oyster Plant

Culture—Sow in drills eight inches apart; thin out to three inches.

MAMMOTH SANDWICH ISLAND—Superior variety; large. Pkt. 10c; oz. 25c; ½ lb. 75c; lb. $2.50; postpaid.

Hardie's Pumpkins

Culture—When weather is warm, plant in hills ten to twelve feet apart, dropping four seeds to a hill. We would strongly recommend the planting of Pumpkins, as they make splendid feed for hogs and cattle; they do well planted in corn; every fourth hill in every fourth row may be planted in pumpkin seed.

WHITE CASHAW—Crookneck. A popular variety, with a hard creamy-white shell. Fruits two feet in length, with long solid meaty neck. Pkt. 5c; oz. 20c; ½ lb. 50c; lb. $1.50; postpaid.

GREEN-STRIPED CASHAW—Very popular variety; flesh deep yellow, very thick and sweet, cannot be beaten for pies. Pkt. 5c; oz. 20c; ½ lb. 50c; lb. $1.50; postpaid.

LARGE YELLOW FIELD—Very productive, grown for stock. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 85c; postpaid.

LARGE BLACK SHAPED—Fruit of the best for family use; flesh yellow, thick and excellent quality. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 85c; postpaid.

KING OF MAMMOTHS—Largest of all Pumpkins, weighing at times over 150 pounds grown mostly for show. Pkt. 10c; oz. 20c; ½ lb. 40c; lb. $1.35; postpaid.

TENNESSEE SWEET POTATO—One of the very best pie Pumpkins. Grow pear-shaped, of good size, slightly ribbed. Skin is creamy white, flesh is very thick, creamy-white, dry and fine-grained, keeping well until late in spring. Pkt. 5c; oz. 20c; ½ lb. 40c; lb. $1.35; postpaid.
Hardie's Squash Seed

Culture—Sow in hills in the same manner and at the same time as cucumbers and melons, bush varieties two to four feet apart, running kinds six to nine.

EARLY WHITE BUSH OR PATTY PAN—Most popular squash for shipping, nearby markets and home use. Early; very prolific; an excellent shipper; light cream color. Pkt. 5c; oz. 10c; ¼ lb. 50c; lb. $1.00; postpaid.

BOSTON MARROW—The leading squash for fall and winter; hard-skinned, good keeper, finely flavored. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.50; postpaid.

HUBBARD—Well-known winter squash; vines of strong running growth, fruits large, olive-shaped, with dark green skin, and very rich flesh; an excellent keeper and of splendid quality. Pkt. 5c; oz. 10c; ¼ lb. 50c; lb. $1.50; postpaid.

MAMMOTH WHITE BUSH—A large-fruited strain of Early White Bush variety; matures quite early, and will bear throughout the season if the fruits are kept gathered; the fruits will measure up to 12 inches in diameter. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00; postpaid.

EARLY BUSH SUMMER CROOKNECK—Very productive, small crook¬necked and warty, color yellow. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. $1.00; postpaid.

FORDHOOK—Oblong-shaped, with cream-colored skin. Flesh light yellow, very thick and of excellent quality. Keeps well if allowed to ripen. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. $1.10; postpaid.

after sowing, else there is danger of the young plants prying up before their roots can get hold of the soil. Flower seeds generally succeed best in rich soil; some leaf mold out of the woods is good to put

AGERATUM (Floss Flower)
Annual. One of the best summer blooming plants grown from seed. Rapid growers, early and constant bloomers. During the hot, dry summer months their bright flowers are produced in the greatest profusion. Set the dwarf sorts 10 inches apart and they soon make a low mass of charming flowers.
Mexicanum Coeruleum—1½ ft. Blue. Pkt. 10c; oz. $1.00.
Imperial Dwarf White—Very attractive when grown with the blue varieties. 8 to 9 inches high. Pkt. 10c; oz. $1.00.
AGROSTEMMA
Coeli (Rose of Heaven)—1 ft. Remarkably pretty, hardy annual of light graceful habit; flowers light rose, shaded white. Pkt. 10c.

ALYSSUM
Benthami (Sweet Alyssum)—One of the finest annuals we have for edging and is beloved by many on account of its modest blossoms. Pleasantly fragrant. Begins to bloom early in the season, and continues until frost. Mix the seed with sand before sowing to prevent sowing too thickly. Pkt. 10c; oz. $1.00.
Little Gem, Snow-white Carpet Plant—The plants, which are only a few inches high, grow so dense and are so completely covered with snow-white blossoms, they create the impression of a beautiful snow-white carpet. Pkt. 10c; oz. 40c.

AMARANTHUS
Brilliantly foliaged annuals, some of the varieties bearing curious racemes of flowers. All are useful in borders of tall plants among shrubs, or for the centers of large beds. Do not grow them too closely together, but give them sufficient room to develop their full beauty. When flowered in small pots under glass they are very charming.
Caudatus (Love Lies Bleeding)—3 ft., drooping red spikes. Pkt. 10c; oz. 30c.
Crucianus (Prince’s Feather)—3 ft. Dark red feathery flowers. Pkt. 10c; oz. 30c.
Tricolor (Joseph’s Coat)—2½ ft. The inner foliage is of blackest bronze, tipped with green, while the outer foliage is bright scarlet and gold. Pkt. 10c; oz. 35c.
AQUILEGIA
Charming hardy plants, bearing in countless numbers through May and June exquisite clear, blue, white, rose, yellow, purple and striped blossoms. For planting in permanent borders or edges of shrubbery this old-fashioned favorite is one of the best. They thrive well with ordinary garden culture. Few hardy perennials are so easily grown from seed.
Vulgaris fl. pleno—24 in., mixed. Pkt. 10c.

Make Your Yard the “Beauty Spot of Your Neighborhood
Hardie’s Flower Seeds
The wonderful Southern climate has created a want for more beauty and the demand for flowers has grown extensively in recent years. Hardie’s Flower Seeds are grown on contract by the best growers of the United States, Holland, France and Germany. It is with pride that we say: “There are none better”—but we ask that you bear in mind that the best Flower Seeds can not be expected to produce good results, unless properly planted and cared for. BE SURE AND READ THE GENERAL CULTURAL DIRECTIONS PRINTED BELOW AS THEY ARE MOST IMPORTANT.

Important—Read This
Culture—A common error in planting flower seeds is covering them too deep; they should not be covered more than twice the thickness of the seed; small seed, such as Portulaca, need only be pressed down with a board or the hand; always press the soil down firmly after sowing, else there is danger of the young plants prying up before their roots can get hold of the soil. Flower seeds generally succeed best in rich soil; some leaf mold out of the woods is good to put on the beds. All prices quoted on Flower Seeds are postpaid.

ASTER
This splendid fall favorite of our grandmother’s garden still continues to beautify our garden, and should be sown more generally, it being perfectly hardy and easily grown.
Dwarf Chrysanthemum—White, fine for cut flowers, 12 in. Pkt. 10c; oz. $1.25.
Dwarf Chrysanthemum—Mixed colors. 12 in. Pkt. 10c; oz. $1.00.
Dwarf Victoria—Mixed colors. 18 in. Pkt. 10c.
Comet—Finest mixed colors, beautiful curved petals. 15 in. Pkt. 10c.
Gilled—Mixed colors. 18 in. Pkt. 10c; oz. 50c.

ADONIS
Aestivatis (Flos Adonis)—Annual 1 ft. Pretty little plant with feathery fresh green foliage, dotted with innumerable small red flowers. Pkt. 10c.
BALSAM (Lady Slipper)
Tender annual. 1½ to 2 ft. Balsams like the hot sun, rich soil and plenty of water. For perfect development the plants should be set from 12 to 17 inches apart. Sow seed in open ground in May. Transplanting two or three times has the tendency to dwarf the plants into better shape and to make the flowers more double.
Double Dwarf—mixed, beautiful free bloomers. 18 in. Pkt. 10c; oz. 50c.
Double Rose-Flowered—Mixed flowers, large, perfect shape. 18 in. Pkt. 10c; oz. $1.00.
BLUE BONNET
“Texas State Flower.” Very pretty, grows about 12 inches high. Sow the seed early in the spring. Keep well watered. Bloom in Texas during April and May. Pkt. 10c; oz. 40c; ½ lb. $1.00.

CALENDULA (Pot Marigold)
One of the best and showiest free-flowering hardy annuals, growing in any good garden soil, producing a fine effect, in beds or mixed borders, particularly bright in late fall, continuing in bloom from early summer until killed by frost; valuable also for pot culture, blooming freely in winter and early spring.
Officinalis, Meteor, Orange King—Pkt. 10c; oz. 40c.

CALLIOPSIS (Tickseed)
A quick-growing annual. 6 in. to 2 ft. The flowers are placed on graceful wavy stems and in color run through all the shades of red and yellow; foliage dainty, useful combined with other flowers. It is best to sow them where they are to bloom, thinning out to stand 6 in. to 12 in. apart.
Mixed—All the choice Calliopsis in mixture. Pkt. 10c; oz. 50c.

in.

Pkt. 15c.

four months from sowing.

Pkt. 15c; oz. $1.50.

for cut flowers and borders.

Dwarf White—Showy annuals for beds, useful for cutting. Pkt. 10c; oz. 50c.

Dwarf Crimson—Showy annuals for beds, useful for cutting. Pkt. 10c; oz. 50c.

Dwarf Hybrids—Mixed, useful for cutting. Pkt. 10c; oz. 40c.

White Rocket—Showy annuals for beds, useful for cutting. Pkt. 10c; oz. 50c.

California Poppy (See Eschscholtzia)

Cannas

Pkt. 10c; oz. 75c.

Carnations

Marguerite Carnations)

Early Flowered Vienna—Mixed. 12 in. Pkt. 10c.

Margaret—Finest mixed, especially adapted for outdoor culture, blooms in

four months from sowing. Pkt. 15c; oz. $1.50.

Margaret—White. 12 in. Pkt. 15c.

Castor Bean

Stately, strong-growing annual plants. Excellent for a back¬

ground or for hiding unsightly fences. Also desirable as center

plants for beds. Cannas, Dahlias, etc. Five to eight feet high.

Fancy Mixed—Pkt. 10c; oz. 25c.

Centaurea

Annual. 2 ft. Under this name is included such popular annuals as

the Cornflowers, Sweet Sultans, etc. They are favorites in all

sections of the country, are perfectly hardy, will grow and do

almost anywhere and are much in demand as cut flowers.

Cyanus Minor (Cornflower or Blue Bottle)—Finest mixed.

Pkt. 10c; oz. 30c.

Blue Double—Pkt. 10c; oz. 60c.

Chrysanthemum

2 ft. Showy and effective garden favorite, extensively grown for

cut flowers. The hardy annuals and sunflowers are summer

plants, good for pot culture and quite distinct from the autumn

flowering varieties.

Annual Sorts—Mixed. 18 in. Pkt. 10c; oz. 40c.

Frutescens (Paris Daisy)—White, yellow center. 12 in. Pkt.

10c; oz. $1.75.

Clarkia

A charming hardy annual growing about 2 feet high. Has been

much improved in recent years. Colors rose, white, red, etc. A

profuse and continuous bloomer. Culture easy. They do well

either in sun or shade.

Elegans—Double and single. Mixed. Pkt. 10c; oz. 60c.

Cockscomb (Celosia)

Very popular annuals of easy culture, producing large, orna¬

mental, comb-like heads like ruffled chenille. Prized for pots or

flowers. Pkt. 10c; oz. 75c.

Dwarf—Mixed, very ornamental, crested. Pkt. 10c; oz. $1.50.

Glasgow Prize—Crimson, very large. Pkt. 15c.

Stimulant Makes a Wonder Garden

See Page 20

Eschscholtzia (California Poppy)

Annual. 1 ft. The State Flower of California. A bright free¬

flowering plant of low spreading growth with finely cut silvery

foliage. The poppy-like flowers in pure shades of yellow, orange

and crimson are produced from early spring until frost. Sow the

seed outdoors where the plants are to remain during May.

Eschscholzia rosea grandiflora—Rose-cardinal. Pkt. 10c; oz. 40c.

10c; oz. 40c.

Eschscholzia—Mixed colors. Pkt. 10c; oz. 30c.

Foxglove (Digitalis)

Handsome, ornamental, hardy plants of stately growth. The

seed, though small, germinates readily and the plants succeed

well even in poor soil if given a half shady location. The spikes

are often 3 to 5 feet long and thickly strung with scores of thimble

shaped flowers. Pkt. 10c; oz. $1.25.

Feverfew (Matricaria)

Free-flowering plants, succeeding in any good soil; a fine bedding

plant for pot culture; blooms until frost; hardy annual. 1½ ft.

Capsella Bursa-Pastoris— doubled. Pkt. (Double White Feverfew)—Handsome double

white flowers; 18 inches. Pkt. 10c; oz. $1.00.

Forget-me-not (Myosotis)

Biennial. ½ to 1 ft. They are considered among the best

spring flowers and grouped with Pansies and Daisies the most

lovely combinations may be obtained. Responds to good treat¬

ment and flourishes in shady, moist situations. Pkt. 10c.

Mammoth Yellow Cosmos

Cosmos

Annual. 6 ft. Beautiful autumn blooming plants. They

produce thousands of beautiful mammoth flowers in pure white,
pink and crimson shades, furnishing an abundance of cut blooms

for autumn decorations when other flowers are scarce. Seed

should be sown in spring in the open ground when danger of frost

is past, or the seed may be started under cover and afterwards

transplanted. Plant not less than 18 inches apart in rows or in

masses in beds. When the plants are about a foot high the tops

should be pinched out to induce a bushy growth. They prefer

a rather light, not too rich soil, but do well almost anywhere.

Mammoth Yellow—An improved strain of the Klondike, a

beautiful golden-yellow. Pkt. 10c; oz. $1.00.

Coleon

The handsomest foliage plant obtained from seed. The leaves

often measure 10 inches in length and 8 inches in width, heart

shaped and handsomely crimped, toothed and frilled; their color

combinations are remarkably rich.

Fine Mixed—Pkt. 15c.

Dahlia

But few people know Dahlias can be raised from seed and will

bloom the first year. The seeds germinate easily and certainly

as Zinnias, and from the very first development are strong and

sturdy little plants. Plant them in a shallow box or pan early in

March or April, transplant them carefully as their growth de¬

mands, and keep the soil moderately moist. When all danger

from frost is over, plant them in the bed or border in the garden,

and from then on they will prove no more trouble than if the

tubers had been used instead of seed.

Double Mixed—36 in. Pkt. 10c.

Daisy

African Daisy (Arctotis Grandiflora)—Its flowers are large and showy, pure white on surface, the reverse petals pale lilac-blue.

Pkt. 10c; oz. $1.25.

Shasta Daisy—Beautiful flowers and exceedingly large in size. This Daisy is truly a member of the Chrysanthemum family but

is more generally known as Shasta Daisy. Per pkt. 10c.

Double Mixed—Height, 6 in. Pkt. 10c.
Hardie's Flower Seeds, Continued

FOUR O'CLOCK (Mirabilis)
Annual. 1 ft. Marvel of Peru. This is another old-fashioned flower, bearing hundreds of blooms during the season of white, yellow, crimson and violet. Some varieties combine two or more of these colors in spots, flanks and splashes in such a manner as to give the flowers a most showy effect.
Mixed—All sorts and colors. Pkt. 10c; oz. 50c.

GAILLARDIA (Blanket Flower)
Splendid, showy annuals, remarkable for the profusion, size and brilliancy of their flowers, continuing in bloom from early summer until November; excellent for beds, borders, or for cutting. Should be sown where they are to bloom.
Grandiflora—2 ft. Large-flowering mixed. Pkt. 10c.
Mixed—Pkt. 15c.

GERANIUM
These grow rapidly from seed the first year and produce blooming plants the first summer. There is a great deal of pleasure in watching them develop from seed, and there is always the chance of thus securing something new.
Elegans Grandiflora Alba (Angel's Breath)—An improved, large-flowering, pure white, of free, easy growth. Several sowings should be made during the season to keep up a supply.
Pkt. 10c; oz. 50c.

HIBISCUS
Attractive annuals growing 18 inches high.
Duchess of Albany—White, very showy. Pkt. 10c.
Bride—White and crimson, very showy. Pkt. 10c.
Whitney—Dark rose, very showy. Pkt. 10c.

GYPSOPHILA
Graceful plants of light fairy-like growth. Much in demand for cutting and combining with other flowers for bouquets and vases.
Empress Odorata—Large flowering, very sweet. Pkt. 10c; oz. 50c.

HIBISCUS
Perennial plants of stately growth which will flower from seed the first year. Blossoms are set as double and semi-double rosettes around the flower stalk in almost every color. Makes a charming hedge or background.
Finest Double Mixed—48 in. Pkt. 10c.
Double White—Fine for flower. Pkt. 10c.
Double Red—Brilliant shade. Pkt. 10c.
Double Pink—Pkt. 10c.

LUPINUS
Free-flowering, easily-grown annuals, with long, graceful spikes of rich and various colored, pea-shaped flowers; valuable for mixed borders, beds and for cutting; prefers a little shade.
Fine Mixed—Pkt. 10c; oz. 40c.

LOBELIA
Annual. Flowers from seed the first year. The dwarf varieties are used to an advantage in edging beds and in pots, the trailing ones for hanging baskets and massing.
Erinus Alba—1 ft. White flowers. Pkt. 10c.
Compacta Crystal Palace—6 in. Deepest blue; dark foliage. Pkt. 10c.

LARKSPUR (Delphinium)
One of the best known garden flowers. A vast improvement has been effected, by careful selection and attentive cultivation, in size and color of the blossoms and the general habit of the plant. Seed should be sown as early in the spring as possible where they are to flower.

Dwarf Rocket—Mixed. 10 in. Pkt. 10c; oz. 60c.
Tall Rocket—Double mixed. 34 in. Pkt. 10c; oz. 60c.
Emperor—Double, finest mixed. 24 in. Pkt. 10c; oz. 60c.
Stock Flowered—Finest mixed. 24 in. Pkt. 10c; oz. 75c.
Emperor—Double blue. Pkt. 10c; oz. 75c.
Emperor—Double pink. Pkt. 10c; oz. 75c.

MARIGOLD (Tagetes)
The Marigolds are old favorites, free-flowering annuals of easy culture. They light the garden with a glint of yellow far into the frosts of autumn.

African—Tall, double mixed, very ornamental. 24 in. Pkt. 10c; oz. 60c.
French—Tall, double mixed, very ornamental. 24 in. Pkt. 10c; oz. 60c.
French—Dwarf, double mixed, very ornamental. 18 in. Pkt. 10c; oz. 60c.

MIGNONETTE (Reseda)
A garden is not complete without this fragrant plant of unassuming mien. One of the principal uses is for cutting purposes and combining in bouquets with other more pretentious blossoms without its delicate odor, 6 to 12 inches.

Grandiflora Machet—Highly scented large flowers. Pkt. 10c; oz. 60c.

Lantana

Larkspur

Hibiscus

Gaillardia

Larkspur
PINKS OR DIANTHUS

Annual. Petunias will produce their handsome sweet-scented flowers in their delicate and gorgeous colors throughout the whole summer.

Hybrida—Mixed. 15 in. Pkt. 10c; oz. $1.00.
Hybrida—Inimitably striped and blotched. 9 in. Pkt. 10c.
Rosy Morn—Bright, rose-pink with white throat. The plants are small and compact and flower most freely. We recommend this variety very highly. Pkt. 10c; oz. $1.00; postpaid.
Fringed Single Mixed—Very attractive, deeply fringed flowers in a variety of colors. Pkt. 20c. 20 seeds only.

Double Flowering Mixed—It is well known that seed saved from the most carefully hybridized flowers produce but a small percentage of double flowers, the balance being single of unusually fine quality. The weaker seedlings should be carefully saved, as these invariably produce the finest double flowers. Price, pkt. 25c. Package contains only 20 seeds.

PORTULACA (Rose Moss)

Annual. For ease of culture, duration of bloom, brilliancy of coloring and general excellence, nothing excels Nasturtiums.

Carnation Flowered—Pkt. 10c; oz. 40c.
Danebrog—Pkt. 10c; oz. 50c.
Paeony Flowered—Pkt. 10c; oz. 60c.
—Brilliant pink.
—Double mixed. Pkt. 10c; oz. 40c.
—Crimson.
Umbrosum—Pkt. 10c; oz. 50c.
Shirley—Fine for cut flowers. 12 in. Pkt. 10c; oz. 50c.

SALVIA (Scarlet Sage)

Does well in window boxes, and is useful for cutting to give color. Its best use, however, is as a hedge, or border plant, where long, broad bands of intense color are desirable.

Coelefin—Brilliant scarlet, fine bedder. Pkt. 10c; oz. $1.00.
Splendens—Large flowering, very showy, bright scarlet. Pkt. 15c; oz. $2.00.

SCABIOSA (Mourning Bride)

Old Maid's Pincushion—Hardy annuals of easy cultivation, blooming freely through the summer and autumn. Stands hot, dry summer. Flowers large and very showy, growing on stalks 1 1/2 to 2 feet high. Decorative for beds and cut flowers. All colors mixed. Pkt. 10c; oz. 75c.

SCHIZANTHUS (Butterfly or Fringe Flower)

(Poor Man's Orchid)—This is one of the airiest and daintiest annual flowers imaginable, especially adapted to bordering beds of taller flowers and those of a heavier growth.

Nasturtiums

Continued

PYRETHRUM

Parthenifolium Aureum—Perennial; 6 inches.
Golden Feather—One of the best plants for edging, grown for its beautiful yellow foliage. More successfully treated as an annual. Seed can be sown in the fall or spring and transplanted. Extra fine strain. Pkt. 10c.
Hardie’s Flower Seeds, Continued

SNAPDRAGON (Antirrhinum)
For gorgeous coloring few flowers can match Snapdragons. The flowers of this new strain are of very large size, are very fragrant and are produced on immense long spikes, which render them extremely well adapted for cut flowers. They are easily raised from seed in any rich, sunny bed. If intended for winter-flowering inside, cut back in September.

Tall Giant—Finest mixed. Pkt. 10c; oz. 75c.
Tall Giant—Rose pink. Pkt. 10c; oz. 1.00.
Tall Giant—Brilliant red. Pkt. 10c; oz. 1.00.
Tall Giant—Yellow. Pkt. 10c; oz. 75c.
Tom Thumb—8 inches, finest mixed. Pkt. 10c; oz. 1.25.

STOCKS (Ten Weeks) (Gillflower)
Either for bedding or pot culture; for brilliancy and diversity of color, fragrance, profusion and duration of bloom, it is unsurpassed.

Double Dwarf Mixed—Pkt. 10c.

SUNFLOWER
Annual. The State Flower of Kansas. Should be planted with discrimination in every garden.

Dahlia-Flowered Zinnias

Hardie’s Show-Flowered Zinnias

GIANT DOUBLE ZINNIAS
Robusta Giant Mixed—The best of the new Giant or Colossal Zinnias, producing extra large blooms of the rarest shades. The stems of this variety are long; it is therefore excellent for cut flowers. If you are a lover of colors—plant this wonderful mixture. Pkt. 10c; 1/2 oz. 35c; oz. 1.00.

Crimson Scarlet—A real red double Zinnia. Pkt. 10c; oz. 1.00.
White—Pure white shading into light cream. Very pretty. Pkt. 10c; oz. 1.00.
Yellow—Shades of yellow that are showy. Pkt. 10c; oz. 1.00.
Lavender—One that will please where delicate color is wanted. Pkt. 10c; oz. 1.00.
Pink—Pleasing shades—fits well with brighter colored blooms. Pkt. 10c; oz. 1.00.

Dahlia-Flowered Zinnias

Dahlia-Flowered Mixed—The latest development in Zinnias, bearing flowers of mammoth size and in form somewhat like a double Dahlia. The selection of colors in the great mixture improves every year, the range of colors is wonderful. You will find our Dahlia-Flowered Mixed seed reasonably priced and the quality can not be surpassed. Pkt. 15c; 1/2 oz. 1.10; oz. 2.00.

Red—(Monarch). Exceptionally large-flowering red. Pkt. 25c; 1/2 oz. 1.60; oz. 3.00.
Lavender—(Vio). A dark shade—near violet. Pkt. 25c; 1/2 oz. 1.60; oz. 3.00.
Pink—(Old Rose). A delightful shade of real old rose. Pkt. 25c; 1/2 oz. 1.60; oz. 3.00.
Yellow—(Canary). A deep canary shade. Pkt. 25c; 1/2 oz. 1.60; oz. 3.00.

Other Sorts

Tall Double Mixed—One of the first improved larger Zinnias, a wonderful array of color. Pkt. 5c; oz. 75c.
Tom Thumb Mixed—Recommend it for planting in spots where you would want dwarf growth. Pkt. 5c; oz. 1.00.

Special Discount On Flower Seeds
Please read our very liberal offer on the inside front page cover of this catalog. This plan is much better than offering you a “Special Collection,” as in this manner you may select the seeds you actually want.

David Hardie Seed Company, Dallas, Texas
Hardie's Vine Seeds

Beautiful vines are easily grown from seed and will add great beauty to your home. Use vines for your porch, trellis or lattice work. The cost is almost nothing.

**BALSAM (Momordica)**

Apple—10 ft. A very ornamental and quick-growing climber. While it has a flower, it is grown mostly for the effect of the fruit which follows. This is yellow, looks not unlike an apple—hence its name. When ripe it opens and shows the seeds and blood-red interior. Pkt. 10c; oz. 40c.

**BALSAM PEAR—Like above, only the fruit is pear-shaped.** Pkt. 10c; oz. 40c.

**CYPRESS VINE (Ipomoea Quamoclit)**

Annual. 10 ft. For training upon a light ornamental trellis the Cypress Vine cannot be excelled. It has a prodigal of scarlet or white star-shaped blossoms; its finely cut foliage is particularly adapted to ornamental work.

**CARDINAL CLIMBER**

A very beautiful annual climber. A strong and rapid grower attaining a height of thirty feet or more with beautiful fern-like foliage and well covered with circular cardinal-red blossoms. Pkt. 10c; oz. 40c.

**EVENING GLORY**

Pkt. 5c; oz. 25c.

**GOURDS**

These are desirable in many places where an immense amount of vine is wanted quickly.

**Apple-shaped**—Beautiful striped. Pkt. 5c; oz. 25c.

**Calabash or Pipe Gourd**—Odd-shaped fruit which is used to an advantage in making pipes. Pkt. 5c; oz. 25c.

**Dipper**—Makes an excellent dipper. Pkt. 5c; oz. 25c.

**Disheath or Towel**—Many women prefer a disheath made of this Gourd to anything else, as it is always sweet and clean as long as any part of it is left. Pkt. 5c; oz. 25c.

**Hercules Club**—Fruit grows 3 to 4 ft. long. Pkt. 5c; oz. 25c.

**Japanese Nest Egg**—Fruit looks exactly like a hen’s egg and may be used as nest eggs. Pkt. 5c; oz. 25c.

**Pear-shaped**—Stripped yellow and green. Pkt. 5c; oz. 25c.

**Mixed, all varieties**—Pkt. 5c; oz. 25c.

**JACK BEAN (Dolichos, or Hyacinth Bean)**

A rapid growing annual vine, 10 ft., flowers freely in erect racemes, followed by ornamental seed pods. Sweet scented. Pkt. 10c; oz. 40c.

**Labiab—Rapid growing and free-flowering.** Pkt. 10c; oz. 30c.

**IPOMOEA**

Moonvine—Beautiful rapid annual climbers, 20 ft. Foliage very dense. The flowers in their wide range, delicate coloring, are poised on slender stems. Many of the sorts open only when the sun rises, others when the sun sets. Seeds should be soaked in warm water for 24 hours before sowing, to assist rapid germination. The seed should be notched with a file before soaking. Pkt. 10c; oz. 30c.

**Evening Glory** (Bona Nox)—Violet flowers, large and fragrant. Pkt. 5c; oz. 25c.

**KUDZU VINE** ("Jack and the Beanstalk")

Pueraria Thunbergia—Hardy perennial climber of rapid growth, 30 ft. It comes from Japan, the land so productive of curious and ornamental flowers. A beautiful climber, remarkable for its great vigor of growth and handsome flowers. Blossoms are large and in panicles somewhat like Wistaria, but larger in size and with better clusters. Color is a pleasing shade of purple. Very good Everlasting with silvery foliage and silky flowers in panicles, both in the bud state, can be dried and used for winter bouquets. Many colors. Pkt. 10c; 3 pkts. for 25c.

**THUNBERGIA (Black-Eyed Susan)**

Beautiful, rapid-growing annual climbers, preferring a warm, sunny situation; used extensively in hanging-baskets, vases, low fences, etc., very pretty flowers in buff, white, orange, etc., with dark eyes; mixed colors. 4 feet. Pkt. 10c; oz. 75c.

**SWEET PEAS**

**Japanese Imperial—Foliage variegated, large flowers, and of rich colors, mixed.** Pkt. 10c; oz. 40c.

**Japanese Imperial—Fancy fringed.** Pkt. 10c; oz. 40c.

**Heavenly Blue—Delightful shade of sky-blue, large flowering.** Pkt. 10c; oz. 65c.

**NASTURTIUMS**

**Terry Mixed—Well-known favorite climbers.** 10 ft. Pkt. 5c; oz. 25c; 1/4 lb. 75c.

**SCARLET RUNNER**

Scarlet Runners—Useful as a vegetable and for ornamental purposes, producing sprays of bright scarlet flowers. By mail, postpaid, pkt. 10c; oz. 20c.

**THUNBERGIA** (Black-Eyed Susan)

**SWEET PEAS**

**Jovibarba**—A real fiery red—beautiful for decorations and designs. Pkt. 10c; oz. 20c; lb. $2.00.

**Red**—A real fiery red—beautiful for decorations and designs. Pkt. 10c; oz. 20c; lb. $2.00.

**Sweet Peas**

**Everlasting**

*Straw Flowers*

Hardy annual. The so-called Everlastings or Straw Flowers are of eternal beauty, those that never fade. Unsurpassed for winter decorations or bouquets; they last for years. Should be cut as soon as they come into open bud or full bloom; tie into small bunches and allow to dry slowly in the shade with the heads downwards to keep the stems straight.

**ACROLIDIUM**

Roseum—Annual. 2 ft. A pretty Everlasting, bearing graceful daisy-like flowers, pretty bright rose with yellow center, which, when cut in the bud state, can be dried and used in winter bouquets. Pkt. 10c; 3 pkts. for 25c.

**GOMPHERA GLOBOSA**

Globe Amaranth—2 ft. Flowers resemble clover heads and can be dried and used in winter bouquets. Many colors. Mixed. Pkt. 10c; 3 pkts. for 25c.

**RODANTHE**

Mixed—Delicate looking. Pkt. 10c; 3 pkts. for 25c.

**XERANTHEMUM ANNUS ALBUM**

Very good Everlasting with silvery foliage and silky flowers in pink, white and purple. Annual. Double Mixed colors. Pkt. 10c; 3 pkts. for 25c.
Beautiful Gladiolus

Gladiolus are among the most popular of all garden flowers. Each year the size, color and beauty of these wonderful flowers are being improved upon. They are very easy to grow and will do well in almost any soil under any condition. If planted in the richest place of your garden and given plenty of sun and moisture they will repay you with extra-large and gorgeous colors.

America—A very delicate lavender shade of pink. Price each 6c; per dozen 60c; postpaid.

Mrs. Francis King—Vermilion-scarlet, a bright and pretty shade. Price each 5c; per dozen 50c; per 100 $5.50; postpaid.

Primiinions Hybrids—Beautiful yellow shades, the "Sunbeam" of the Gladiolus family. Price each 10c; per dozen 1.00; per 100 $7.50; postpaid.

Chicago White—Very early, "pure white" color, slightly tinted with lavender in center. Price each 10c; per dozen 1.00; per 100 $7.50; postpaid.

Mrs. Frank Pendleton—Flushed salmon-pink, with rich maroon blotch on the three lower petals. The most popular flower in florists' shops. Each 10c; per dozen 1.00; per 100 $7.00;

Standard Mixed—A good mixture, made up of many different colors and shades. Price each 10c; per dozen 60c; per 100 $4.50; postpaid.

Extra Fine Mixed—A mixture of the most popular sorts—will please you. Price each 8c; per dozen 85c; per 100 $5.50; postpaid.

Hardie's Rainbow Collection

12 Gladiolus, selected from the very best standard sorts and some of the very rare new varieties. One of our customers reported a bloom with 17 spikes grown from a planting of Rainbow Collection last summer. Order several collections—you will find Rainbow the best. 1.25, postpaid.

REMEmBER—The size of the bulb has nothing to do with the size of the bloom. Some of the best sorts are produced from the smaller bulbs.

Cannas

KING HUMBERT—4 feet. Scarlet flowers; bronze leaves. A favorite. Price, 30c each; dozen 45.00.

YELLOW KING HUMBERT—4 feet. Dark-green foliage, a rich yellow in color, spotted with bright red. Each 30c; $3.00 per dozen.

THE PRESIDENT—4 feet. A rich glowing scarlet with immense rounded flowers. Price, each 30c; $3.00 per dozen.

EUREKA—4 feet. A remarkable free-flowering Canna. Beautiful white flowers. Each 35c; $3.00 per dozen.

ROSEA GIGANTEA—4 feet, Double. Orange in color. Each 35c; $3.00 per dozen.

KARL MERCK—4 feet. Yellow with tinge of orange and flecked with pink dashes. Each 35c; $3.00 per dozen.

Tiger Lily

TIGRINUM SPLENDENS—(Single). Very hardy; orange spotted with purple. Each 35c; 3 for 65c; postpaid.

TIGRINUM FLORE PLENO (Double). Orange in color. Each 35c; 3 for 65c; postpaid.

Cinnamon Vine

Well known hardy climber, a quick grower, glossy heart-shaped leaves; sweet-scented flowers. Will run 25 to 40 feet. Each 15c; 3 for 35c; postpaid.

Madeira Vine

One of the very best climbers for foliage effect. Increases very rapidly. Each 15c; $1.00 per dozen; postpaid.

Stim-U-Plant

An all-the-year Fertilizer for garden and house plants in tablet form. Simply insert the tablets in the soil. Or, four tablets dissolved in a gallon of water is the solution used in place of liquid manure. 10 tablets 30c; 30 tablets 30c; 100 tablets 80c; postpaid.

David Hardie Seed Company, Dallas, Texas
Hardie's Tested Seed Corn

The judicious farmer should mix his crop, planting some of both early and late corns; early corns are often made before the time when our occasional dry seasons set in. We call attention to the error many people make, when planting corn early, in having it too deep. The deeper you plant the colder the ground is, and especially with soft corns, the seed is apt to rot before the ground gets warm enough to germinate it, resulting in a poor stand. Early plantings of corn should be planted shallow if you want an early and good stand.

**HARDIE'S GIANT YELLOW DENT**—This fine Southern-grown yellow corn is a splendid variety, well suited to the South. It makes a good sized ear, with fine deep grain and is very prolific, and stands dry weather remarkably well. A well-bred corn; the large demand we have for it every year proves that it gives the best of satisfaction. Our stock this year is fine; every ear was carefully selected before shelling. Prices: Per qt. 35c; postpaid. Not prepaid, per peck 85c; per bu. $2.75; 4 bu. or more at $2.50 per bushel. Please write for prices in larger quantities.

**SURCROPPER**—An excellent variety for both early and late planting. Grows a heavy stalk and a medium-sized broad ear; in many instances one stalk of this variety will produce two ears of corn. We truly believe that Surcropper will make corn where many other varieties fail. It is drought-resisting and will stand lots of hot weather. Requires about 100 to 110 days to mature. Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 90c; per bu. $3.00. Write for prices in larger quantities.

**BLOODY BUTCHER**—One of the very best cobs for Texas. It makes about 100 days. Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 85c; per bu. $2.75. Write for prices in larger quantities.

**STRAWBERRY**—Has always done well in Texas. Large ear and a very heavy yielder. Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 85c; per bu. $2.75. Write for prices in larger quantities.

**HICKORY KING**—Comes near being all corn and no cob than any other. Makes a beautiful roasting ear, highly desirable where a pure white corn is wanted for meal. Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 90c; per bu. $3.25. Write for prices in larger quantities.

**MEXICAN JUNE CORN**—Remember June Corn should not be planted before June. (If planted earlier, will grow nothing but foliage.) Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 85c; per bu. $2.75. Write for prices on larger quantities.

**GIANT WHITE—RED COB**—Combines the good qualities of all the special features, which, combined with a medium size cob, makes it a heavy yielding corn. The color of the grain throughout is a bright yellow. Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 85c; per bu. $3.00. Write for prices on larger quantities.

**CHAMPION WHITE PEARL**—Matures in ninety days, giving early roasting ears in the spring. We highly recommend it for a general crop of white corn. Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 85c; per bu. $3.00. Write for prices on larger quantities.

**IOWA OR SILVER MINE**—Very early, maturing in eighty-five to ninety days. Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 85c; per bu. $3.00. Write for prices on larger quantities.

**EARLY LEAMING**—The earliest Yellow Dent Corn, maturing in eighty to eighty-five days. Grain is small and long, but the rows are so close together that the ears will shell off a remarkable amount of corn. Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 85c; per bu. $3.00. Write for prices on larger quantities.

**IOWA GOLD MINE**—Combines the good qualities of all the Yellow Dent varieties. The length of the grain is one of its special features, which, combined with a medium size cob, makes it a heavy yielding corn. The color of the grain throughout is a bright yellow. Prices: Per qt. 35c; postpaid. Not prepaid, per pk. 85c; per bu. $3.00. Write for prices on larger quantities.

**GIANT FEEDING SUGAR BEET**—A strain of beets very desirable for stock feeding, affording not only a very large crop, but exceedingly rich in sugar and other nutritive elements. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 65c; postpaid. Not prepaid, 10 lbs. $5.00.

Stock Beets or Mangels

Relished by all kinds of farm animals, and they head the list not only on account of their large yields, but also for their qualities. They are more juicy, contain more sugar and are the most profitable crop to raise. They also stand more heat and drouth than Turnips and Rutabagas. We would like to see a larger increase in the planting of this root crop. The feeding of mangels for stock can not be overestimated. They are relished by all kinds of farm animals, and they head the list not only on account of their large yields, but also for their qualities. They are more juicy, contain more sugar and are the most profitable crop to raise. They also stand more heat and drouth than Turnips and Rutabagas. We would like to see a larger increase in the planting of this root crop.

**MAMMOTH LONG RED MANGEL**—Large, well-formed, blood red, very nutritious and a good keeper. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 65c; postpaid. Not prepaid, 10 lbs. $5.00.

**GOLDEN TANKARD MANGEL**—It differs from all other Mangels, being deep yellow colored flesh to the core. Pkt. 5c; oz. 10c; ½ lb. 25c; lb. 65c; postpaid. Not prepaid, 10 lbs. $5.00.

David Hardie Seed Company, Dallas, Texas
**Field Beans**

**EARLY SPECKLED VELVET BEANS**—A vining or climbing plant, growing to forty and fifty feet, with branches literally covered with foliage. A nitrogenous plant, enriching the land to a remarkable degree, and strongly recommended for planting in orchards for fertilizer. As soon as danger of frost is past, plant in rows four feet apart and one foot in the row, two or three beans to a place. Cultivate once or twice to give vines a start of weeds or grass. They grow very rapidly, and in two months the under leaves begin to drop. The seed we offer this season is grown from select Mebane seed, and has been carefully handled at the gin, under the personal attention of the grower. Freight prepaid to Texas points on orders for three bushels or more. Bushel $2.25; 10 bushels $2.00 per bushel.

**KASCH COTTON SEED**—An upland cotton; it has large bolls, the average averaging from 1 to 1 1/2 inches in diameter. These large non-flaring bolls make Kasch Cotton very easy to pick, and is near storm-proof. It is noted for the production of a drought-resistant, sticky, short-jointed, early fruiting stalk. Has a long tap-root, which causes the plant to grow rapidly while a season is in the ground. Instead of 1,600 pounds of seed cotton for a bale of 525 pounds as in most cotton, a bale of this weight is produced from 1,250 to 1,350 pounds of seed cotton grown from Kasch Cotton Seed—the staple averaging from 1 1/2 to 1 3/4 inches. Freight prepaid to Texas points on orders for three bushels or more. Bushel $2.25; 10 bushels $2.00 per bushel.

**ROWDEN**—We believe for the boll-weevil district that this is the best cotton that can be planted, for the reason that it puts on as much cotton as any variety except in a small way. The quality of our seed is the best, of course considered. It does not pay to experiment with new varieties, but like the Rowden, is easily picked. The seed we offer this season is grown from select Mebane seed, and has been carefully handled at the gin, under the personal attention of the grower. Freight prepaid to Texas points on orders for three bushels or more. Bushel $2.25; 10 bushels $2.00 per bushel.

**MEBANE’S TRIUMPH**—Has undoubtedly proved itself to be the best cotton seed for Texas. From every quarter we have reports of extra large yields made from it, many reporting double the yield of other cottons; and we have not heard a planter, who planted our good seed, complain of it in any way; all have a good word to say for it. Farmers who know this cotton say they would give $3.00 per bushel for the seed rather than be without it. It is a cross between a long lint cotton and Texas Storm-Proof, has a large boll, five locks, short jointed, very prolific, and is well adapted to black, waxy and prairie lands of any character; is also storm-proof, but like the Rowden, is easily picked. The seed we offer this season is grown from select Mebane seed, and has been carefully handled at the gin, under the personal attention of the grower. Freight prepaid to Texas points on orders for three bushels or more. Bushel $2.25; 10 bushels $2.00 per bushel.

**IMPROVED EVERGREEN**—This bean is extensively grown in New Mexico and the dry sections surrounding it. It has been our policy for many years past to preach "more feed crops," and we truly believe that the time will soon pass when Texas farmers will have to ship in great lots of feed—unless our crops happened to be an "entire failure."

**JAPANESE HULL-LESS**—Very small white full ears—best for eating, also make an excellent chicken feed. The seed germinates very quickly and after the crop starts, it will stand more dry weather and also poor soil conditions than Soy Beans or Cow Peas. As the seed is small, it only requires about four pounds to plant an acre. Price, lb. 50c; postpaid. Write for prices in larger lots.

**SOY, OR SOJA BEAN**—Mammoth yellow. Plants grow to a height of 1 1/2 to 2 feet, and are very productive. Plant in drills 3 feet apart, one foot apart in the row, dropping two beans in a hill. Price, prepaid, 25c per lb. Not prepaid, 10 lbs. $1.25. Write for prices in quantities.

**LAREDO SOJA BEANS**—An excellent hay bean, also a heavy bean yielder. It is a good soil builder and fairly early. Price, lb. 45c. Write for prices in larger lots.

**MUNG BEANS**—This wonderful bean has proven a good soil builder; as the vines grow from three to five feet, it is also a great hay crop. The beans are good to eat, also make an excellent chicken feed. The seed germinates very quickly and after the crop starts, it will stand more dry weather and also poor soil conditions than Soy Beans or Cow Peas. As the seed is small, it only requires about four pounds to plant an acre. Price, lb. 50c; postpaid. Write for prices in larger lots.

**MONARCH WHITE RICE**—Best to plant for market. Prepaid, per lb. 30c; 10 lbs. $1.10, not prepaid.

**QUEEN’S GOLDEN**—Pops a beautiful creamy-white, fine flavor. Prepaid, per lb. 30c; 10 lbs. $1.25, not prepaid.

**JAPANESE HULL-LESS**—Very small white full ears—best for popping. Per lb. 40c, prepaid; 10 lbs. $1.75, not prepaid.
Sorghums, Millets, Etc.

We carry a heavy stock of all kinds during the planting season, but as prices fluctuate so much, we can not quote in quantities; on open orders we always ship at market price of day order was received, your full money’s worth; or please write us for prices when planting time approaches.

Non-Saccharine Sorghums

EGYPTIAN WHEAT, OR SHALLU—Can be planted either broadcast or in drills, and yields a heavy crop of excellent forage. Plant in drills three feet apart, 10 lbs. to the acre, or broadcast 50 lbs. to the acre. Lb. 25c; mail paid. Not prepaid, 10 lbs. $1.25; 100 lbs. $7.50. Write for prices on quantities.

HIGARU—A cross between White Kaffir and Feterita. It contains more saccharine than either Feterita or Kaffir. Lb. 20c; postpaid. Not prepaid, 10 lbs. 75c; 100 lbs. $4.00. Ask for prices in larger lots.

DARSO—Its stalk is juicy, containing considerable saccharine. It is earlier than Kaffir. A cross between Orange Cane and Milo Maize. Lb. 20c; postpaid. Not prepaid, 10 lbs. 75c; 100 lbs. $3.75. Write for prices in larger lots.

Feterita

FETERITA—The greatest drouth-resisting crop ever introduced in the Southwest, making good when such crops as Milo Maize and Kaffir Corn fail. Owning to its storing habit, makes lots of forage, and often makes as many as seven heads to a plant; all stock are very fond of it. Matures earlier than either Milo or Kaffir Corn. A splendid crop to grow for silage. Should be planted in rows and cultivated the same as corn. It takes about 8 lbs. to plant an acre. Price, mail paid, 25c per lb. Not prepaid, 10 lbs. 75c; 100 lbs. $4.25. Write for prices in quantity.

SPUR FETERITA—Write for prices.

Kaffir Corn

WHITE KAFFIR CORN—Price, 20c per lb.; postpaid. Not prepaid, 10 lbs. 75c; 100 lbs. $3.75. Write for prices in larger quantities.

RED KAFFIR CORN—Price, 20c per lb.; postpaid. Not prepaid, 10 lbs. 75c. Write for prices in larger quantities.

Milo Maize

YELLOW MILO MAIZE—This excellent fodder plant has proved of great value during dry years in Texas. The stalks grow about eight feet high and produce a good many large leaves. It stools from the ground; also sends out shoots from the joints, all making grain heads. Can be cut two or three times, letting the last cutting mature heads. Price, prepaid, 20c per lb. Not prepaid, 10 lbs. 75c; 100 lbs. $3.75. Write for bushel prices.

Saccharine Sorghums

EARLY AMBER CANE—One of the best sorghums for feed; very early, and on account of its sweetness and leaves, it is much relished by all stock. For the best quality of hay, it ought to be planted thick, 2½ to 3 bushels to the acre. Price, prepaid, 20c per lb. Not prepaid, 10 lbs. 75c; 50 lbs. $2.00; 100 lbs. $3.75. Write for prices in larger quantities.

EARLY ORANGE CANE—It is very juicy and highly recommended for syrup; is 12 to 14 days later than Amber. Price, prepaid, 20 per lb. Not prepaid, 10 lbs. 75c; 50 lbs. $2.00; 100 lbs. $3.75. Write for bushel prices.

JAPANESE BARNYARD MILLET—Much relished by horses and cattle. The seed may be sown about corn-planting time, or a little later. The crop matured in fifty to sixty days. It can stand almost any amount of rain with impunity, does not drown out like other Millets. The seed does not hurt stock, nor is there any danger to stock from eating it in the green state, like there is at times with Sorghum. Now about 30 lbs. to the acre. Prices, by mail, prepaid, 50c per lb. Write for prices in quantity.

Texas Seeded Ribbon Cane

JAPANESE, OR HONEY DRIP—Price, 25c per lb.; postpaid. Not prepaid, 10 lbs. $1.00; 50 lbs. $3.50; 100 lbs. $5.50. Please write for prices on larger quantities.

Millet

BIG GERMAN—The favorite Millet of Texas, on account of its large yield; on good land, with a favorable season, five tons to the acre being not uncommon; makes lots of leaves. To make the best hay it should be cut green, when heads are in full bloom; if wanted for seed, must be allowed to ripen. Should not be sown before April, when ground gets warm. Three pecks will sow an acre. Price, prepaid, 25c per lb. Not prepaid, 10 lbs. $1.00; 50 lbs. $3.50; 100 lbs. $5.50. Write for bushel prices.

PETTIT, OR PEARL, OR CAT-TAIL MILLET—Should be planted in rows like Sorghum. Very suitable for feeding green to cows and horses. Stools out largely from the ground, and makes a great mass of foliage, grows very fast, and can be cut several times; will keep on growing until frost. Price, prepaid, 35c per lb. Not prepaid, 10 lbs. $2.00; 50 lbs. $8.75; 100 lbs. $15.00. Write for prices on quantities.

JAPANESE BARNYARD MILLET—Much relished by horses and cattle. The seed may be sown about corn-planting time, or a little later. The crop matured in fifty to sixty days. It can stand almost any amount of rain with impunity, does not drown out like other Millets. The seed does not hurt stock, nor is there any danger to stock from eating it in the green state, like there is at times with Sorghum. Now about 30 lbs. to the acre. Prices, by mail, prepaid, 50c per lb. Write for prices in quantity.
Hardie's Alfalfa

“For Hay and Pasture”

Do not plant until your soil is well prepared and give it good care and attention the first year. After sowing the seed, roll your land and you will find that the seed will germinate better. We highly recommend the CAHOON SEED SOWER for sowing Alfalfa seed; you will find this tool fully described on page 30 of this catalog.

Alfalfa is a very profitable crop, yielding three to five cuttings a year and the hay is most nutritious. It is claimed that the feed value of a ton of Alfalfa is equal to a ton of shelled corn. The yield in weight will average five to seven tons per acre. The roots will penetrate to a depth of 15 to 20 feet and it will get plant food where other crops would be a failure.

When considering the planting of Alfalfa, it is wise to remember that it is one of the best soil builders. Should you want to plant Alfalfa land in some other crop and destroy the plants, the large roots decay and produce a wonderful source of fertility for the growing of new crops. If you have not given Alfalfa a fair trial on your soil, it would be wise to buy a very early and see what it will do with proper care.

HARIDIE’S FANCY NATIVE ALFALFA—Our supply of seed for 1928 selling is TEXAS GROWN, of the very highest quality, truly acclimated to the South. Do not buy cheap Alfalfa seed; if it is cheap it is not pure, but mixed with weed seed. Lb. 40c; postpaid. Not prepaid, 10 lbs. $2.50; 100 lbs. $22.50.

Oats

TEXAS RED RUST-PROOF—The finest oat grown, and the grade has been by careful selection of seed stock greatly improved the last few years. We recommend early fall and early spring planting. As prices fluctuate, write for prices if wanted in quantity. Lb. 35c; bushel 90c; 10 bushels $8.50. Write for prices in larger quantities.

Chufas (Earth Almonds)

Field of Hardie's Native Alfalfa

A grass nut largely grown in some sections for feeding to hogs; they are very prolific, and one of the most fattening feeds known. After the crop is grown, hogs can be turned into the field, thus saving the expense of harvesting them. Plant in May and June, in rows 2 to 3 feet apart, dropping 3 to 5 Chufas every 15 inches. The seed will grow better if soaked for 3 or 4 days before planting. Pkt. 10c; lb. 25c; postpaid. Write for prices in larger quantities.

Cow or Stock Peas

Dwarf Essex Rape

Throughout the Southern States rape should be sown in September and October, and again in February and early March. If sown in drills, four to five pounds; if broadcast (which we believe best for the South), seven to eight pounds to the acre. Price, prepaid, 30c per lb. Not prepaid, 10 lbs. $1.50; 100 lbs. $12.50. Write for prices in larger quantities.

They grow on any soil that is not wet or cold, and especially on soils medium or light. They absorb nitrogen from the atmosphere, and the roots reaching deep into the soil, bring up the necessary potash, thus making a complete and natural fertilizer. WHIPPOORWILL—A very early variety; is a heavy yielder of peas; excellent for fattening hogs; best variety to plant for an early crop, as they make before the heat of summer. Per pound, 25c; postpaid. Not prepaid, 1/2 bu. $1.75; 1 bu. $3.25.

BLACK EYE PEAS—Belong to the same family, and are very productive in this country. A fine table pea. Vines also make good fodder. Price, prepaid, 30c per lb. Not prepaid, 10 lbs. $1.50. Write for prices in quantity.

CREAM PEAS—Surpasses Black Eye, Lady and all other peas for table use. It has a delicate flavor and cooks nicely. Peas are of a medium size and cream color. We strongly advise customers to try a few. Price, prepaid, 30c per lb. Not prepaid, 10 lbs. $1.50. Write for prices in larger quantities.

VIRGINIA JUMBO—The largest peanuts grown; are the favorites for cooking. They are of a spreading habit, and are cultivated in ridges, like sweet potatoes. In a favorable season they make a large yield. Prepaid, per lb. 25c. By freight or express, not prepaid, 10 lbs. $2.00. Write for prices in larger quantities. LONG RED—A variety chiefly raised for hog feed; the kernels are deep red in color; each nut contains from two to four kernels. This variety does well on both heavy black and sandy land. Prices, prepaid, per lb. 35c. By freight or express, not prepaid, 10 lbs. $2.00. Write for prices in larger quantities.

MAMMOTH RUSSIAN—Good for making chickens lay. Small rations do well on both heavy black and sandy land. Prices, prepaid, per lb. 25c. By freight or express, not prepaid, 10 lbs. $2.00. Write for prices in larger quantities.

Rye

SOWN PRINCIPALLY IN TEXAS FOR BEES. GENERALLY PLANTED IN MAY AND JUNE. JAPANESE—Prepaid, per lb. 25c. Not prepaid, 10 lbs. $1.25. SILVER HULL—Prepaid, per lb. 25c. Not prepaid, 10 lbs. $1.25.
Increase Your Crops, Improve Your Soil

Legumes offer the best-known means of maintaining soil fertility and rejuvenating over-cropped and worn-out fields. They add both humus and nitrogen to your soil and thus increase your yield of wheat, cotton, corn and other non-legume crops.

THE U. S. DEPARTMENT OF AGRICULTURE and many State Agricultural Experiment Stations recommend inoculation of legumes with nitro-fixing bacteria to induce a prompt "catch" and increase your yield.

Why buy expensive commercial nitrates when you can grow legume crops and thus increase your yield and at the same time increase the nitrates and enrich and renovate your soil, by Nature's own method?

David Hardie Seed Company, Dallas, Texas
Poultry Items and Sprayers

These prices F. O. B. Dallas

Glass Cloth

A substitute for glass costing only a fraction as much. It is semi-transparent, water-proof and weather-proof. An exceptionally strong fabric is being used this year—better than before. It does not break and readily admits the ultra-violet rays of the sun. Used in the poultry house it stops baby chick losses, increases chick growth and increases egg production.

1 yard (9 square feet).......................... $ .40
10 yards (90 square feet)................. 3.50
15 yards (135 square feet).............. 5.00
50 yards (450 square feet).............. 15.00
100 yards (900 square feet)........... 25.50

Cel-O-Glass

The Unbreakable

No more broken chicken-house windows when you use CEL-O-Glass. Far better than glass because it is very light in weight, weather-proof and cold-proof and is absolutely unbreakable. CEL-O-Glass admits the Ultra-Violet rays of the sun. It spreads the light evenly so that there are no dark shadows anywhere. It breaks up the direct sun rays and diffuses the light and for this reason variation in temperature is reduced to a minimum.

CEL-O-Glass is easy to put up. Simply cut it to size with an ordinary pair of shears and tack it in place with a few staples or tacks. That's all the work there is to it.

Sold in rolls 3 feet wide and in any length up to 100 linear feet. Use it for garage and barn doors and windows, cellar windows, storm doors and most any other place where you are now using glass in a perpendicular (straight up and down) position.

Per Yard (9 square feet)...................... $1.40
Roll, 100 ft. long x 3 ft. wide (300 square feet).......................... 45.00

Carbola

Paints and also Disinfects Dries White

CARBOLA is easy to put up. Simply cut it to size with an ordinary pair of shears and tack it in place with a few staples or tacks. That's all the work there is to it.

Sold in rolls 3 feet wide and in any length up to 100 linear feet. Use it for garage and barn doors and windows, cellar windows, storm doors and most any other place where you are now using glass in a perpendicular (straight up and down) position.

Carbola

Ready for use as soon as it is mixed with water. Easily and quickly applied to building interiors with spray pump or brush. Carbola helps control disease germs, lice and mites. There is nothing better than CARBOLA to help make buildings clean, sweet-smelling and sanitary, and it is especially recommended for use in poultry houses, kennels, creameries, stables, hog houses, factories, cellars, rabbit hutches and warehouses. May be used also as a dry powder house killer.

5 lbs........................ $ .75
10 lbs.......................... $1.25
50 lbs.......................... $5.00

Buttermilk Starter........ Per 10 lbs. 75c. 100 lbs. 5.50

Sprayers

Hudson Perfection Sprayer

In our opinion this is the best sprayer of its size on the market today. It has a heavy galvanized tank with a capacity of three gallons, well built and does not develop leaks very quickly, as is the case with many other sprayers. The working of the machine is very simple and has no complicated parts to get out of order. The cut-off on the nozzle shuts off instantly so that none of the solution in the tank is wasted. It has an adjustable shoulder strap, making it easy to handle in your spraying work. Price, $6.50 each, f. o. b. Dallas.

The Misty Sprayer

For spraying Paris Green and other insecticides on vegetables; also good for spraying poultry houses and other outhouses, horses, cattle and other livestock; makes a very fine, misty spray. They are light, strong and well made. Price, 60c each, f. o. b. Dallas. Weight packed, 4 lbs. If wanted by mail, add postage.

The Hudson Powder Gun

For dusting Slug Shot, Paris Green, lice powder and all dry powder disinfectants and poisons. It is so constructed with double screen arrangement that it is absolutely impossible for the machine to clog. The powder can holds about one quart, and has two-inch screw cap opening in back for filling. Finish aluminum finish. Price, $1.10 each, f. o. b. Dallas. Weight packed, 4 lbs. If wanted by mail, add postage.

ALL OF THE ABOVE PRICES, F. O. B. DALLAS.
Spraying Material

HAMMOND'S SLUG SHOT

Destroys all insects injurious to Potatoes, Cabbage, Squash, Melons, Cucumbers, Beets, etc.; also lice on rose bushes and other flowering plants. This preparation, though death to insects, does not injure the plants—in fact, it is a fertilizing to them. Thoroughly dust the powder over the infected plants. Price, 5 lbs., $1.25; 10 lbs., $2.50, all f. o. b. Dallas. If wanted by parcel post, add postage.

TOBACCO DUST

Good for killing garden pests on flowering or vegetable plants; finest quality. 25c per lb., postpaid; $10.00 per 100 lbs., f. o. b. Dallas.

DERRISOL

An efficient insecticide that is highly concentrated and non-poisonous for the control of Aphids. Will act the same as nicotine sulphate and absolutely free from the disagreeable odor. Oz. 35c; 1/2 lb. can $1.20; 1 lb. can $2.00; 2 lb. can $3.00; 10 lb. can $12.00. All prices f. o. b. Dallas.

List of Planet Jr. Tools

Broadcast Seed Sowers

Cahoon—Sows wheat, oats, barley, rye, buckwheat, rice, hemp and other grains and grass seeds five times faster than by hand; does its work perfectly, with one-third less seed than any other method. Four to eight acres can be easily covered per hour. Sows wheat over a tract forty feet wide; other seeds in proportion to weight. Machine is strong, simple, durable, efficient and when used according to directions and with proper care, is guaranteed to perform its work with perfect satisfaction. Take no substitute. Insist on having the genuine CAHOON. At every mechanics and county fair where exhibited the CAHOON has always taken the highest honors, and in two years took first premiums at twenty-one state fairs. This machine was awarded SILVER MEDAL AND DIPLOMA at the National Export Exposition—the highest prize awarded any exhibit. Price $5.50. Weight, 5 1/2 pounds.

Warranty.—We send out only such seeds that will, to the best of our belief, give entire satisfaction; immunity from error being, however, unattainable and success always so largely dependent on outside influences, it must be expressly understood that we give no warranty, express or implied, and we must not be held in any way responsible for the crop. If the purchaser does not accept these seeds on these conditions they must be returned at once, and any money paid for them will be returned.

A Few Special Items

Cabbage Plants, Frost-Proof
These plants are field grown; guaranteed to arrive in good condition. See Page 5 for prices.

Onion Plants, Bermudas
Both Yellow and Crystal White Wax. We ship millions of high class onion plants each season. See Pages 5 and 9 for prices.

Hardie’s Giant Yellow Dent Seed Corn
An exceptionally well-bred corn; one that we believe will give anyone who plants it, a materially increased corn yield. See Page 21 for prices.

Gladiolus, Hardie’s Rainbow Collection
A well balanced collection, high class bulbs, from pure white to dark red. See Page 20 for prices.

Zinnias, Hardie’s Robusta and Dahlia-Flowered Zinnias
These are the results of development in recent years of greatly improved larger flowering and more brilliantly colored strains. See Page 18 for prices.

Bird Supplies
We carry a complete stock bird seed, bird cages and bird supplies. See page 26.

David Hardie Seed Company, Dallas, Texas
PLANT
SUDAN GRASS
for HAY and Summer Pasture

—Why? Because:
—The cost of seeding is low—only 25 to 30 lbs. per acre.
—It is adapted to any soil and most climates.
—It stands more hot, dry weather than any other crop.
—It can be planted early and late and makes a splendid catch crop.
—Makes a sure summer pasture within 30 days.
—It makes its best growth in hot, summer weather when other pastures fail.
—It will carry more livestock per acre than any other pasture.
—It can be cut as often as four times in a season.
—It yields a heavy, leafy, fine-stemmed hay crop, easily cured.
—It is relished by all livestock and has a high feeding analysis.
—Because of its many advantages it is the most valuable hay and summer pasture crop.

Our stock is of highest quality—1927 crop—thoroughly recleaned. Place your order early before the usual late season advance.

Price—25c per pound, postpaid:
